Information Systems Management Rohit Raja, Hiral Raja, 2023-10-18 This book is intended for the technical reader who works with large volumes of data. Written by experts in information systems management, the book includes chapters on software development, cloud implementation, networking, and handling large datasets among other topics. Blockchain and artificial intelligence (AI) are the foundations of automated systems, and the authors provide their viewpoints on information management by using these fundamental domains of information technology.

Exploring the Relationship Between Media, Libraries, and Archives Chisita, Collence Takaingehamo, Rusero, Alexander M., 2018-09-21 New forms of digitalization and digital media technologies are positively and negatively disrupting the free flow of information preservation. These new technologies are revolutionizing the way messages are transmitted and breaking the traditional monopolization of information by well-established institutions. *Exploring the Relationship Between Media Libraries and Archives* provides emerging research on new digital trends in information preservation, origination, and sharing. While highlighting the current shift in information sharing from institutional archives to digital platforms, readers will learn how media librarians and archivists reinvent their processes to meet the ever-progressing needs of users. This book is an ideal resource for librarians, archivists, information preservers, and media professionals aiming to find a balance among the use of media, new digital technologies, libraries, and archives in preserving and furthering information sharing.

Scholarly Communication and the Publish or Perish Pressures of Academia Munigal, Achala, 2016-10-17 The promotion and dissemination of knowledge is a crucial part of the academic community. This is accomplished through the publication of new research through both traditional and emerging venues. *Scholarly Communication and the Publish or Perish Pressures of Academia* is an authoritative reference source for the latest material on methods and available networks for the publication of contemporary academic research. Highlighting innovative writing styles, ethical considerations, and marketing avenues, this book is ideally designed for researchers, upper-level students, scholars, professionals, and practitioners actively involved in the publication of academic research.
