Social Vulnerability to Disasters Deborah S.K. Thomas, Brenda D. Phillips, Alice Fothergill, Lynn Blinn-Pike, 2009-08-10
In recent years the world has watched in horror as tsunamis earthquakes and hurricanes have wrought havoc across countries and continents While these events have different circumstances they share a common factor the overwhelming majority of victims are women children elderly disadvantaged or disabled Evidence gathered from these events **Social Problems** John J. Macionis, 2005 Macionis's Social Problems is the only social problems text that explains how society frames social problems and solutions through politics The text analyzes social issues and policies using the concepts of sociological theory and the everyday language of politics This text helps students understand the attitudes and values that define the political spectrum in the United States Once students know how social problems are defined by our society through politics and how the policies to solve these problems are developed students are able to become involved in solving social problems through activism and political involvement Gender, Work, and Economy Heidi Gottfried, 2013-11-15 This engaging new text uses a feminist lens to crack open the often hidden worlds of gender and work addressing enduring questions about how structural inequalities are produced and why they persist Making visible the social relationships that drive the global economy the book explores how economic transformations not only change the way we work but how we live our lives The full extent of changing patterns of employment and the current financial crisis cannot be fully understood in the confines of narrow conceptions of work and economy Feminists address this shortcoming by developing both a theory and a political movement aimed at unveiling the power relations inherent in old and new forms of work By providing an analysis of gender work and the economy Heidi Gottfried brings to light the many faces of power from the bedroom to the boardroom A discussion of globalization is threaded throughout the book to uncover the impact of increasing global interconnections and vivid case studies are included from industrialized countries such as the US and the global cities of New York London and Tokyo as well as from developing countries and the emerging global cities of Beijing Shanghai and Dubai This comprehensive analysis of gender and work in a global economy incorporating sociology geography and political economy perspectives will be a valued companion to students in gender studies and across the social sciences more generally *Understanding Vulnerability* Vanessa Heaslip, Julie Ryden, 2013-05-28 The notion of vulnerability is critical to person centred and high quality nursing and healthcare practice and underpins all nursing education Understanding Vulnerability a Nursing and Healthcare Approach focuses on vulnerability experienced every day by patients and clients in healthcare and provides clear and supportive guidance to nurses and other healthcare practitioners on protecting and caring for vulnerable patients Taking a fresh critical and reflective perspective that reflects current trends towards the promotion of equality and acknowledges everyone's vulnerability this book is essential reading for all nursing and healthcare students as well as healthcare practitioners who are committed to providing person centred care Special features One of the first books to address the issue

of vulnerability from a nursing and healthcare perspective Written by a group of experienced professionals academics and educationalists with both educational and research expertise in the exploration of vulnerability Includes narratives perspectives and case studies illustrating and bringing to life the issues within the book

Multi-faced Transformations
Elena Danilova, Alina Zubkovych, 2015-10-19 Multi faced Social Transformations Challenges and Studies brings together the proceedings of the 7th Slovenian Social Science Conference The Challenges of Social Transformations held in September 2014 It was organized by the School of Advanced Social Studies SASS the Slovenian National Committee of the Management of Social Transformations programme MOST and the Slovenian National Commission for UNESCO The multidisciplinary contributions presented here analyse various aspects of the economic social and cultural transformations that accompany the contemporary globalized world The book consists of four sections dealing with particular areas of transformations These include a range of political economic and cultural dimensions that are observed from the macro level in social systems and structural changes to the micro level in aspects of individuals lives The book will be of interest for academics in the field of social sciences as well as for civil society activists and policy makers The frames of the transformations are not limited to the European space and provide a more global perspective
