Michaels,2014-03 Advocated as the oldest most natural method of childbirth Lamaze is a practice involving breathing techniques that help a woman work through contractions psychoprophylaxis It has been omnipresent in American culture since the 1970s advocated by the medical community and mothers alike While it would seem that it emerged from the back to the earth culture of the 1960s and 1970s Paula Michaels in this book reveals a shocking history the Lamaze method was actually invented in the Cold War Soviet Union Michaels discovers that a French obstetrician Fernand Lamaze saw the technique being used in Russia in the 1950s and brought it back to his maternity ward in Paris In order to make the method more appealing to Americans early U S advocates hid its Soviet origins and were able to spread it as a grassroots movement This work involving multiple languages and archives in a range of nations promises to be eye opening for scholars the medical community and general readers alike In setting the practice of Lamaze into its context it will shed light on the history of medicine the history of feminism and Cold War history **A Study of Dogen** Masao Abe,1992-01-01 This work analyzes Dogen's formative doubt concerning the notion of original awakening as the basis for his unique approach to nonduality in the doctrines of the oneness of practice and attainment the unity of beings and Buddha nature the simultaneity of time and eternity and the identity of life and death Back cover **Ideal Birth** Sondra Ray,1985 [Birth reborn](#) ,1984 *Obstetric Violence and Systemic Disparities* Robbie Davis-Floyd,Ashish Premkumar,2023-06-11 The final volume in this landmark 3 volume series *The Anthropology of Obstetrics and Obstetricians The Practice Maintenance and Reproduction of a Biomedical Profession* looks at the challenges and even violence that obstetricians face across the world Part I of this volume addresses obstetric violence and systemic racial ethnic gendered and socio structural disparities in obstetricians practices in the Dominican Republic Mexico Peru and the US Part II addresses decolonizing and humanizing obstetric training and practice in the UK Russia Brazil New Zealand and the US Part 3 presents the ethnographic challenges that the chapter authors in Volumes II and III of this series faced in finding surveying interviewing and observing obstetricians in various countries This book is a must read for students social scientists and all maternity care practitioners who seek to understand the diverse challenges that obstetricians must overcome An excerpt In our Series Overview in Volume 1 we asked the question Can a book create a field and answered that question with a resounding Yes For us the official creation of the field of the Anthropology of Obstetrics and Obstetricians has taken not one but the 3 volumes that constitute this Book Series **The Theosophist** ,1907 *Active Birth - Revised Edition* Janet Balaskas,1992-03-16 It's time to empower yourself and just say no to giving birth passively This is the book that has revolutionized childbirth turning birthing mothers from subdued and passive patients to active and empowered owners of

Love has been the realm of poets artists and philosophers throughout history until recently where it has been studied from a number of scientific perspectives What the scientists are missing argues author Michel Odent is that love is vital as a strategy for the survival of the human race Aggression and domination are no longer what we need to have an evolutionary advantage What we need is the capacity to love With a foreword by Miriam Stoppard *The Scientification of Love* weaves together data from a multitude of disciplines offering a number of insightful and exciting explanations and making the case for the adoption of radical new strategies for human survival With maternal love as the prototype for all types of love the book examines the short but critical time just after birth which has long term consequences for our future capacity to love *The Scientification of Love* looks at love holistically and in terms of the hormones which affect it in different parts of life helping us to understand the conflict between civilization and the natural state of the human race Originally published in 1999 revised in 2001 and now released in paperback for 2014 this controversial and fascinating book by the world renowned Michel Odent an influential pioneer in the history of childbirth and health research is still truly groundbreaking Subject Psychology Family Studies *Ethnologia Scandinavica* ,1988 Vol for 1971 contains papers presented at the 1st International Symposium for Ethnological Food Research in Lund 1970 *Ourselves, Growing Older* Paula Brown Doress-Worters,Diana Laskin Siegal,1987 For women over age thirty five Words on Cassette ,1993
