Board Game Decision Games:

Engaging the Past Elizabeth George, 2024-02-14 *Engaging the Past Action and Interaction in the History Classroom* provides practical steps toward using engaging strategies in the classroom to teach students to think historically. These strategies include an approach developed by the author called The You Decide Lecture and innovative ways to use board games and role playing games in the history classroom. The goal is not simply to add window dressing to fundamentally dull lessons but rather to re-examine how teachers think about students as learners of history. This book follows the growing trend within historical pedagogy to care less about content coverage and more about deep engagement student learning and the importance of historical thinking. The students in our classrooms today are the history teachers of tomorrow and awakening them to the exciting complexities of the past is critical to keep the study of history thriving. *Patton's Shadow* Nathan C. Jones, 2024-10-19 General George S Patton's legendary image was carefully crafted during World War II and continues to shape our understanding of American history and culture today. Historian Nathan C Jones explores the creation of the Patton legend and its enduring legacy in *Patton's Shadow*. Online Gaming in Context Garry Crawford, Victoria K Gosling, Ben Light, 2013-03-01 There is little question of the social cultural and economic importance of video games in the world today with gaming now rivalling the movie and music sectors as a major leisure industry and pastime.
