

Conditions of Contract for Construction

Construction

Published by the International Federation of Consulting Engineers (FIDIC) in 1999, the Conditions of Contract for Construction (the "Contract") is a standard form of contract for construction projects. It is widely used by employers and contractors around the world. The Contract is designed to be fair and balanced, and to provide a clear framework for the relationship between the employer and the contractor. It covers all aspects of the construction process, from the initial agreement to the final completion and handover of the project.
