Books Sell Ingram :

Reluctant Capitalists Laura J. Miller, 2008-09-15 Over the past half century bookselling like many retail industries has evolved from an arena dominated by independent bookstores to one in which chain stores have significant market share And as in other areas of retail this transformation has often been a less than smooth process This has been especially pronounced in bookselling argues Laura J Miller because more than most other consumer goods books are the focus of passionate debate What drives that debate And why do so many people believe that bookselling should be immune to questions of profit In *Reluctant Capitalists* Miller looks at a century of book retailing demonstrating that the independent chain dynamic is not entirely new It began one hundred years ago when department stores began selling books continued through the 1960s with the emergence of national chain stores and exploded with the formation of superstores in the 1990s The advent of the Internet has further spurred tremendous changes in how booksellers approach their business All of these changes have met resistance from book professionals and readers who believe that the book business should somehow be above market forces and instead embrace more noble priorities Miller uses interviews with bookstore customers and members of the book industry to explain why books evoke such distinct and heated reactions She reveals why customers have such fierce loyalty to certain bookstores and why they identify so strongly with different types of books In the process she also teases out the meanings of retailing and consumption in American culture at large underscoring her point that any type of consumer behavior is inevitably political with consequences for communities as well as commercial institutions

Sell Thomas N. Ingram, 2015 *SELL 4* employs a comprehensive coverage of contemporary professional selling in an interesting and challenging manner Including relational consultative selling the text is organized on a more contemporary relationship selling process that the author team has tested in and developed for major selling organizations
