Learning Lessons from Waco Jayne Seminare Docherty,2001 This intensive case study derives lessons for negotiation theory research and practice from the Waco disaster The siege at Waco simply refuses to disappear Recently uncovered evidence an ongoing civil suit and the Danforth investigation fuel public interest and controversy Heated debates about what really happened in Waco are a recurring public drama Yet little or no attention has been given to the work of the negotiator who talked with the Branch Davidians This important book utilizes largely unexplored sources of data to explain why fifty one days of negotiations by federal officials failed to get Branch Davidians to exit the compound as desired *Learning Lessons from Waco* applies a theory of worldview conflict to the more than 12 000 pages of negotiation transcripts from Waco Through perceptive analysis of the situation Jayne Seminare Docherty offers a fresh perspective on the activities of law enforcement agents She shows how the Waco conflict resulted from a collision of two distinct worldviews the FBI s and the Davidians and their divergent notions of reality By exploring the failures of the negotiations she also urges a better understanding of encounte The United Nations Sam Daws,Paul Graham Taylor,Sara Lodge,2000 The International Library of Politics and Comparative Government is an essential reference series which compiles the most significant journal articles in comparative politics over the past 30 years It makes readily accessible to teachers researchers and students an extensive range of essays which together provide an indispensable basis for understanding both the established conceptual terrain and the new ground being broken in the rapidly changing field of comparative political analysis These two volumes include articles which examine the system the structure the function and the future of the United Nations

Workbook for Interest-based Problem Solving in Local Government Nicholas P. Lovrich,1998 *From Confrontation to Cooperation* Jay Rothman,1992-08-05 This book explores the roots of transformations in world politics and suggests how the art and science of conflict resolution may be used to guide these changes in constructive and peaceful ways The author proposes that a new emphasis or more precisely a corrective to the power politics approach should prevail in the study and practice of international relations and diplomacy Using the example of the Israeli Palestinian conflict the author presents a methodology for intergroup and international conflict management analysis training policy making and intervention Comparative cases are also included to help readers build upon the approaches suggested for their own educational and peacemaking activities

International Social Science Journal ,1991 **Communication in Peace, Conflict in Communication** Tuğrul İlter,2008 Peace and Conflict are commonly understood as polar opposites In a polarised opposition there is no place for conflict in peace and peace the privileged term of the binary opposition needs to be pure and homogeneous cleansed of any

unlicensed differences and contradictions Yet a radically plural and democratic politics must harbour conflicting and antagonistic views of things opposition is internal to it and its view of freedom says that freedom is always the freedom of those who think differently In contrast the ideal of a homogeneous self same indivisibly unified society is totalitarian and repressive of the very differences that make a society any society possible The organizers of the 2nd International Conference on Communication and Media Studies at Eastern Mediterranean University 2-4 May 2007 thought that a deconstructive and feminist framework that destabilises the entrenched certainties of polar oppositions and an ethical response to the irreducible otherness of the other as well as to one's own alterity would be very appropriate and relevant in our times for rethinking these issues and relied on that framework in formulating the theme of the conference as Communication in Peace Conflict in Communication to emphasise the interrelationship of the two parts separated by the slash as well as the formulation of the subtopics that were listed in the call for papers This volume includes work from around the world that responded to that call

Criminology as Peacemaking Harold E. Pepinsky, Richard Quinney, 1991 Criminology has traditionally been a military science a science of war The criminal element is the enemy Repression and restraint are the primary tools of criminal justice and criminologists study how to make those tools effective in the war on crime We are beginning to realize that this is a war against ourselves and one that we are losing Our inability to make peace with crime and criminals is reflected in the paucity of our daily personal relations where we live by domination and discipline where forgiveness and mercy are seen as naive surrender to victimization The essays in this volume propose peacemaking as an effective alternative to the war on crime They range from studies of the intellectual roots of the peacemaking tradition to concrete examples of peacemaking in the community with special attention to feminist peacemaking traditions and women's experience
