Impact Seminar 2018:

Evidence-Based Policymaking Karen Bogenschneider, Thomas Corbett, 2021-04-27 New thinking is needed on the age old conundrum of how to connect research and policymaking Why does a disconnect exist between the research community which is producing thousands of studies relevant to public policy and the policy community which is making thousands of decisions that would benefit from research evidence The second edition updates community dissonance theory and provides an even stronger more substantiated story of why research is underutilized in policymaking and what it will take to connect researchers and policymakers This book offers a fresh look into what policymakers and the policy process are like as told by policymakers themselves and the researchers who study and work with them New to the second edition The point of view of policymakers is infused throughout this book based on a remarkable new study of 225 state legislators with an extraordinarily high response rate in this hard to access population A new theory holds promise for guiding the study and practice of evidence based policy by building on how policymakers say research contributes to policymaking A new chapter features pioneering researchers who have effectively influenced public policy by engaging policymakers in ways rewarding to both A new chapter proposes how an engaged university could provide culturally competent training to create a new type of scholar and scholarship This review of state of the art research on evidence based policy is a benefit to readers who find it hard to keep abreast of a field that spans the disciplines of business economics education family sciences health services political science psychology public administration social work sociology and so forth For those who study evidence based policy the book provides the basics of producing policy relevant research by introducing researchers to policymakers and the policy process Strategies are provided for identifying research questions that are relevant to the societal problems that confront and confound policymakers Researchers will have at their fingertips a breath taking overview of classic and cutting edge studies on the multi disciplinary field of evidence based policy For instructors the book is written in a language and style that students find engaging A topic that many students find mundane becomes germane when they read stories of what policymakers are like and when they learn of researcher s tribulations and triumphs as they work to build evidence based policy To point students to the most important ideas the key concepts are highlighted in text boxes For those who desire to engage policymakers a new chapter summarizes the breakthroughs of several researchers who have been successful at driving policy change The book provides 12 innovative best practices drawn from the science and practice of engaging policymakers including insights from some of the best and brightest researchers and science communicators The book also takes on the daunting task of evaluating the effectiveness of efforts to engage policymakers around research A theory of change identifies seven key elements that are fundamental to increasing policymaker s use of research along with evaluation protocols and preliminary evidence on each element

Family Policy Matters Karen Bogenschneider, 2024-02-23 This new edition captures the evolving post pandemic landscape of family policy the transformational changes that have occurred

within contemporary families and the social economic and racial ethnic disparities that have grown across families The book draws on policies from around the globe to make an evidence based case for family policy and its contributions to families and to society Bogenschneider tackles a significant challenge of our times the polarization of politics including why it occurs and how professionals can bridge the divide Beyond the basics the book provides best practices for turning analysis into action by drawing on cutting edge research and a point of view often overlooked in policy books the voice of policymakers themselves Imbued with hope yet fundamentally realistic Bogenschneider applies a relationship based and strikingly nonpartisan approach for those who want to make a positive difference for families whether they engage local policymakers in towns cities and counties state national lawmakers or decision makers in businesses nonprofits and philanthropy Accompanied by updated web based teaching materials and a family impact toolkit this is core reading for undergraduate and or graduate courses in family or social policy taught in human development and family studies psychology counseling social work sociology public policy political science and education It is also essential reading for professionals and policymakers interested in pursuing better public policy for families in all their diversity across the lifespan

Poland Dominik Bachmeier,2018-09-24 Seminar paper from the year 2018 in the subject Leadership and Human Resources Miscellaneous grade 1 3 University of Applied Sciences Rosenheim language English abstract Though there has been migration since the beginning of human life and migration within Europe is nothing new the quantitative degree and even the reasons for migration within Europe have changed One reason for that is the right of free movement within the EU which was used by a total of 11 8 million people in 2016 However the public debate on migration in Europe is primarily focusing on international migration from non member states In recent years this was dominated by the topic of the refugee crisis which led to less attention for intra EU migration Nevertheless intra EU migration is a main cause for the high number of new immigrants at least for Germany and the UK In Germany it has increased noticeable in recent years while migration from non EU countries has decreased One of the most represented foreign communities in receiving countries are often Poles Back in 2017 for example Germany had more immigrants coming from Poland than ever before The enlargement of the EU in 2004 and the connected freedom to work in other EU countries was one of the most important stimuli for emigration in Poland s latest history Even before the EU there were high numbers of emigrants leaving But the accession greatly enhanced migration leading Poland to be one of the largest emigration countries within the EU Even though the peak of emigration was reached in 2007 with about 1 8 million migrants there are still many Poles going abroad to live and work there In 2015 alone 123 thousand people have left Poland Nevertheless the Polish economy is one of the fastest growing among EU countries and its unemployment is reducing too In fact Poland was the only country in the EU which has avoided recession the years after the financial crisis in 2009 These issues lead to the question of the effects of mass intra EU migration for Poland s economy as a major sending country and the impacts on Poles both those staying in Poland and those who are living abroad Also it is interesting to know why so many Poles have left or want to leave Poland To answer this question this seminar paper will in the first part give the required fundamentals of intra EU migration and following that will assess the effects risks and chances for the sending country Poland and its citizens After giving an insight into government activities concerning Poles abroad the seminar paper gives a conclusion on the impact of intra EU migration for Poland and its citizens Journal of Oil Palm Research ,2019 Library Literature ,1980 **The Market Impact of Standardized Design in Commercial PEV Battery Pack Purchase and Disposal** James Paul,Electricore, Inc,2015 Illinois Competitive Energy Association V.
