## Introduction to Ethics

As the world evolves, you act in the shadow of a giant ethical fog that is slowly but surely engulfing all of humankind. Advances in science, technology, and biological advances, economic conditions, planetary health issues, and global communication make it difficult for leaders to ignore the important ethical issues in the world. Leaders must recognize their responsibilities and their work. As our personal and societal ethical needs continue to challenge, leaders and others must become professionals, every professional has a responsibility to apply theories for traditional philosophies of ethics and the diverse components of ethics.

Ethical decisions are not always clearly visible, and people must understand the right thing to do and wrong. There is a moral and ethical responsibility to be done.
