Social Problems Anna Leon-Guerrero, 2015-06-18

Empower your students to become part of the solution With a clear and upbeat voice author Anna Leon Guerrero s thought provoking overview of social problems challenges readers to understand and recognize social problems in their communities and inspires them to become part of the solution The Fifth Edition of Social Problems Community Policy and Social Action goes beyond the typical presentation of contemporary social problems and their consequences by emphasizing the importance and effectiveness of community involvement to achieve real solutions With an overarching focus on social inequalities and policy this proven text provides a platform for discussion that encourages critical thinking and inspires hope The extra emphasis on social action and movements is a real strength I like that the three major perspectives are used in each chapter as I feel many texts just put that in the first chapter and then forget about it Todd Michael Callais University of Cincinnati Blue Ash

Christian Worldview and the Academic Disciplines Deane E. D. Downey,Stanley E. Porter,2009-04-15 This book an edited compilation of twenty nine essays focuses on the difference s that a Christian worldview makes for the disciplines or subject areas normally tauht in liberal arts colleges and universities Three initial chapters of introductory material are followed by twenty six essays each dealing with the essential elements or issues in the academic discipline involved These individual essays on each discipline are a unique element of this book These essays also treat some of the specific differences in perspective or procedure that a biblically informed Christian perspective brings to each discipline Christian Worldview and the Academic Disciplines in intended principally as an introductory textbook in Christian worldview courses for Christian college or university students This volume will aslo be of interest to Christian students in secular post secondary institutions who may be encountering challenges to their faith both implicit and explicit from peers or professors who assume that holding a strong Christian faith and pursuing a rigorous college or university education are essentially incompatible This book should also be helpful for college and university professors who embrace

the Christian faith but whose post secondary academic background because of its secular orientation has left them inadequately prepared to intelligently apply the implications of their faith to their particular academic specialty Such specialists be they professors or upper level graduate students will find the extensive bibliographies of recent scholarship at the end of the individual chapters particularly helpful Downey and Porter present a unique contribution to the perennial question of how faith interacts with the academic disciplines Numerous factors contribute to this book s significance the common conviction that one s Christian beliefs ought to shape the contents of one s teaching the variety of perspectives and opinions and the wide range of academic disciplines under discussion The essays originating among the excellent faculty of Trinity Western University will deservedly be much used in undergraduate colleges and universities Hans Borsma J I Packer Professor of Theology Regent College Few faculty Christian or otherwise understand what their colleagues in other departments are doing or why This collection of essays is not only an excellent introduction to the whole scope of academic enterprises but to the unique and important relationship between each discipline and the Christian faith An important book not only for the entire range of faculty but for students yearning to understand both their Christian faith and what is being taught in the classroom James W Sirf author of the Universe Next Door and with co author Carl Peraino Deepest Differences A Christian Atheist Dialogue Christian Worldview and the Academic Disciplines is a book long overdue It will serve as an outstanding textbook for interdisciplinary courses But this book is more than that Christian Worldview and the Academic Disciplines is a book that everyone concerned with Christian thought especially in the context of the Academy will want to read I highly recommend it Craig A Evans Payment Distinguished Professor of New Testament Acadia Divinity College Nova Scotia

Buddhist Approach to Harmonious Families, Healthcare and Sustainable Societies Thich Duc Thien, Thich Nhat Tu, 2019-04-16

EDITORS INTRODUCTION BACKGROUND There have been major changes in world today and that the term Global Leadership and Sustainable Development is no longer taken for granted as a point of reference for understanding the contemporary chaotic situation These disruptive changes mean that it is now arguable as to whether we still live in a world of justice equality peace and prosperity The nature of these changes and the concepts of the Buddhist approach are central to the whole project of this book In this light we place great emphasis on understanding Buddhist teaching in dealing with this matter We argue that any investigation of the changing character and context of the present time needs to take account of the Buddhist philosophy We focus on providing a thorough and critical understanding of change taking place as a starting point of discussion In doing so we attempt to clarify the nature of the Buddhist approach It may be more productively understood as the result of a complex contested and fragile set of arrangements which in this book we term as approach We do not imply that the frameworks based on the Buddhist teachings are fully fixed and agreed by everybody Rather it would refer to a set of arrangements that need to be further discussed Given the above this volume collects together papers presented at the international workshop on Buddhist Approach to Harmonious Families Healthcare

and Sustainable Societies which took place on 13 May 2019 at International Conference Center Tam Chuc Ha Nam Vietnam on the occasion of THE 16TH UNITED NATIONS DAY OF VESAK CELEBRATIONS 2019 The participants in this workshop were not representative of the mainstream thinking or conventional wisdom of this field although this volume reflects this richness and diversity Treating the Buddha teachings as a basic theoretical reconstruction we examine the relationships between the societies and Buddhist responsibilities We combine analyses of the conflicts trends and dynamics affecting future development with more focused studies on a range of policy areas migration education leadership climate change etc Two of our most crucial presumptions are that making Buddhism great again at the time of disruption is our first and foremost duty and the Buddhist responsibility can contribute to creating a new foundation for Global Leadership and Sustainable Development

Social Problems Robert Dean Peterson, Delores F. Wunder, Harlan L. Mueller, 1999 For courses in Social Problems or Global Issues This volume integrates traditional sociological concepts and insights with an ecological awareness and applies it to the globalization process It takes a dynamic view of globalization as an evolutionary process with a potential for unprecedented transformation of social structure and consciousness

Opposing Hate Speech Anthony Cortese, 2005-11-30 What happens when two deeply held American values freedom of expression and freedom from discrimination clash In any well established democratic society people have the right to free speech as well as the right to equal treatment and protection under the law But when one person's speech harms another person on the basis of race ethnicity religion gender or sexual orientation it may qualify as hate speech and be subject to restriction Cortese argues that restricting hate speech does not violate the guiding principle behind the First Amendment but he is not eager to see more lawsuits Effective restriction he asserts should not focus on litigation but on speech codes and moral education Is there a limit to freedom of expression in a democracy and if so where should the line be drawn In attempting to answer that question Cortese makes a solid case for paying attention to context and common sense Some hate speech is more reprehensible than others not all discriminatory statements are equally serious There is a discernible difference between an offensive remark and an incitement to commit murder There is also a fundamental distinction between intentional and unintentional discrimination In this book Cortese rethinks some of the issues that have been silenced in ways harmful to many especially those that have been brutalized oppressed manipulated dominated segregated and disadvantaged We should recognize the grave injuries inflicted by hate speech and the potential tensions between legal solutions to those injuries and the First Amendment We must push for moral education educational speech codes and when necessary a formal legal structural response to hate speech in order to reinforce our commitment to tolerance as a value

Silent Racism Barbara Trepagnier, 2017-07-05 Vivid and engaging *Silent Racism* persuasively demonstrates that silent racism racism by people who classify themselves as not racist is instrumental in the production of institutional racism Trepagnier argues that heightened race awareness is more important in changing racial inequality than judging whether individuals are racist The collective

voices and confessions of nonracist white women heard in this book help reveal that all individuals harbor some racist thoughts and feelings Trepagnier uses vivid focus group interviews to argue that the oppositional categories of racist not racist are outdated The oppositional categories should be replaced in contemporary thought with a continuum model that more accurately portrays today's racial reality in the United States A shift to a continuum model can raise the race awareness of well meaning white people and improve race relations Offering a fresh approach *Silent Racism* is an essential resource for teaching and thinking about racism in the twenty first century *Social Problems* John J. Macionis, 2012-10-12
