Advancing forest-based carbon trading in Nepal: Policy challenges and agroforestry opportunities Chaudhary, Arbind, Babu, Suresh Chandra, 2025-08-04 Nepal remains among the countries most vulnerable to climate related disasters Although several national policy documents have emphasized the urgency of mitigation and adaptation climate action remains fragmented and significantly underfunded Nepal's unique geography spanning the Himalayas mid hills and Tarai plains together with recent decentralization reforms offers a favorable context for implementing localized context specific solutions to climate threats However the lack of consistent policy frameworks weak institutional mechanisms limited investment and fragmented governance across all levels of government continue to impede progress In this policy note we use carbon trading in the forestry sector as a case study to illustrate broader policy challenges and opportunities in Nepal and other Global South countries Trading is a market based mechanism that incentivizes the offset of greenhouse gas GHG emissions through credits for CO₂ sequestration Nepal has adopted this approach in line with international agreements such as the Kyoto Protocol and the Paris Agreement As one of the major strategies the country has sought to capitalize on its forest resources to generate carbon credits and attract international climate finance

Electronic Design Automation for IC Implementation, Circuit Design, and Process Technology Luciano Lavagno, Igor L. Markov, Grant Martin, Louis K. Scheffer, 2017-02-03 The second of two volumes in the Electronic Design Automation for Integrated Circuits Handbook Second Edition Electronic Design Automation for IC Implementation Circuit Design and Process Technology thoroughly examines real time logic RTL to GDSII a file format used to transfer data of semiconductor physical layout design flow analog mixed signal design physical verification and technology computer aided design TCAD Chapters contributed by leading experts authoritatively discuss design for manufacturability DFM at the nanoscale power supply network design and analysis design modeling and much more New to This Edition Major updates appearing in the initial phases of the design flow where the level of abstraction keeps rising to support more functionality with lower non recurring engineering NRE costs Significant revisions reflected in the final phases of the design flow where the complexity due to smaller and smaller geometries is compounded by the slow progress of shorter wavelength lithography New coverage of cutting edge applications and approaches realized in the decade since publication of the previous edition these are illustrated by new chapters on 3D circuit integration and clock design Offering improved depth and modernity Electronic Design Automation for IC Implementation Circuit Design and Process Technology provides a valuable state of the art reference for electronic design automation EDA students researchers and professionals

Traditional knowledge, perceptions and forest conditions in a Dayak Mentebah community, West Kalimantan, Indonesia Edith Weihreter, 2014-12-19 This study aims to introduce the natural resource uses of Dayak Mentebah people of the village Nanga Dua West Kalimantan It is part of the project CoLUPSIA that focuses on reinforcing small stakeholder's rights Furthermore ecological data are collected to support

the protection of Indonesia's species rich and vulnerable tropical forests threatened through high deforestation rates. The local people's perceptions about their environment and land uses were assessed using participatory survey techniques: focus group discussions, scoring exercises, free lists of species, and participatory mapping. To further record the traditional practices, a survey was conducted on medicinal plants. The ecological assessment was done through survey plots in different land use units where tree diversity and diameter at breast height was measured. The inhabitants of Nanga Dua are dependent upon forest products for food material for construction, basketry, etc. Medicinal plants are an integral part of the health care system. The traditional shifting cultivation creates a diverse and mosaic-like patchwork of various types of forests having different successional stages. Tree diversity in the land use units was generally high with the primary forest in immediate proximity acting as a tree species reservoir.

Teaching Case Studies for Tourism and Hospitality in Asia and The Pacific Ranjana Tiwari, Madalyn Scerri, Cindy Lee, 2024-11-12. This book represents a creative contribution to the field of tourism and hospitality education. By combining teaching case studies with cartoon illustrations, this resource aims to stimulate curiosity, encourage intellectual exploration, and empower the development of future industry professionals. This book introduces readers to real-life industry case studies and the challenges inherent in the Asia-Pacific region's tourism and hospitality business contexts. It equips students with the knowledge and skills needed to navigate the variety of situations in the industry and provides valuable practical applications for when they enter the workforce. The case studies featured in the book can be used as teaching tools in tertiary tourism and hospitality education. Using the teaching notes, educators are able to stimulate discussions and classroom activities to unpack key themes, ideas, concepts, and theories within the case to facilitate active learning.

Cloud of Cards Patrick Keller, 2018-09-25. A home cloud kit to reappropriate your data self is the final outcome of *Inhabiting and Interfacing the Clouds*, a joint design and ethnographic research project investigating personal clouds and data centers. The main results of this design research project have been informed by the preliminary findings of an ethnographic research into the cloud. *Cloud of Practices* and a design sketches phase conducted in parallel. They comprise four digital and physical artefacts forming a set of modular tools, cards, which are delivered in the form of an open source DIY kit, freely accessible at www.cloudofcards.org and on Github. The purpose of these tools is to enable everyone, in particular the community of designers and makers, to set up their own small-scale data center and cloud manage their data in a decentralized way and develop their own alternative projects using this small-scale personal infrastructure.

Computational Intelligence in Machine Learning Amit Kumar, Jacek M. Zurada, Vinit Kumar Gunjan, Raman Balasubramanian, 2022-03-03. The book includes select proceedings of the International Conference on Computational Intelligence in Machine Learning (ICCIML) 2021. The book constitutes peer-reviewed papers on machine learning, computational intelligence, the internet of things, and smart city applications, emphasizing multi-disciplinary research in artificial intelligence and cyber-physical systems. This book

addresses the comprehensive nature of computational intelligence artificial intelligence machine learning and deep learning to emphasize its character in modeling identification optimization prediction forecasting and control of future intelligent systems The book will be useful for researchers research scholars and students to formulate their research ideas and find future directions in these areas It will help the readers to solve a diverse range of problems in industries and their real world applications

Integrated Dental Treatment Planning Elizabeth J. Kay,2005 Dentistry is not only about understanding the causes of oral disease and having the technical expertise to treat them Patients frequently challenge practitioners with ethical dilemmas psychological and social problems health and welfare difficulties and personal demands This book covers the case histories of six individuals and the dental problems they encounter through their lives Each case is loosely based on a real individual to allow the senior dentistry student to develop an understanding of the many issues they may face in daily clinical practice Although all the patients featured in the book have problems related to oral and dental diseases their successful long term management requires both a profound awareness of modern treatment options and a broad knowledge of law applied to dentistry the ethics of dental care plus the psychology and sociology of disease and health related behaviour Each chapter describes a hypothetical patient and how he or she presented or might present to a general dental practitioner The various treatment options which could be chosen by the patient s practitioner are included and the advantages and disadvantages of the various treatment plans are described The medium and long term outcomes for that patient in terms of their oral well being are then covered so that the reader can appreciate how even seemingly inconsequential treatment decisions can impact on a person many years after their encounter with the dentist This longitudinal approach will help the reader to view dealing with patients problems as a lifetime s work rather than as a set of one off interventions

Ecosystems and Human Well-Being Kanchan Ratna Chopra,2005-12-14 With the knowledge of possible outcomes what kind of actions should we take The Millennium Ecosystem Assessment scored 74 response options for dealing with declines in ecosystem services and biodiversity and managing drivers such as climate change and nutrient loading This third volume in the MA series analyzes the track record of past policies and the potential of new ones The challenge of reversing the degradation of ecosystems while meeting increasing demands for their services can be met only with significant policy and institutional changes

However a difficult set of obstacles stand in the way Policy makers must keep in mind that there are both trade offs and synergies between human well being ecosystems and ecosystem services and that decisions regarding these tradeoffs are difficult and often contentious The Responses volume ultimately establishes which policy options have the greatest chance to overcome the obstacles and generate positive outcomes It will serve as an invaluable guide to the creation of stronger policy frameworks for the future
