Performing Age in Modern Drama Valerie Barnes Lipscomb,2016-07-14 This book is the first to examine age across the modern and contemporary dramatic canon from Arthur Miller and Tennessee Williams to Paula Vogel and Doug Wright All ages across the life course are interpreted as performance and performative both on page and on stage including professional productions and senior theatre groups The common admonition act your age provides the springboard for this study which rests on the premise that age is performative in nature and that issues of age and performance crystallize in the theatre Dramatic conventions include characters who change ages from one moment to the next overtly demonstrating on stage the reiterated actions that create a performative illusion of stable age Moreover directors regularly cast actors in these plays against their chronological ages Lipscomb contends that while the plays reflect varying attitudes toward performing age as a whole they reveal a longing for an ageless self a desire to present a consistent unified identity The works mirror prevailing social perceptions of the aging process as well as the tension between chronological age physiological age and cultural constructions of age

Style: An Approach to Appreciating Theatre E. Bert Wallace,2022-06-29 *Style An Approach to Appreciating Theatre* offers brief readable chapters about the basics of theatre as a starting point for discussion and provides new adaptations of classic plays that are both accessible to students learning about theatre and fit for production In this text style is the word used to describe the various ways in which theatre is done in real space and time by humans in the physical presence of other humans The book uses style the liveness of theatre that makes it distinct from literature or history as a lens to see how playwrights directors designers and actors bring scripts to life on stage Rather than focusing on theatre history or literary script analysis it emphasizes actual theatrical production through examples and explores playscripts illustrating four theatrical styles Realism Theatricalism Expressionism and Classicism Susan Glaspell's Realistic play *Trifles* is presented as written while *The Insect Play* by the Brothers Apeke *The Hairy Ape* by Eugene O'Neill and *Antigone* by Sophocles are original full length adaptations *Style An Approach to Appreciating Theatre* is the perfect resource for students of Theatre Appreciation Introduction to Theatre Theatrical Design and Stagecraft courses

Shaping the Future of African American Film Monica White Ndounou,2014-04-29 In Hollywood we hear it s all about the money It s a ready explanation for why so few black films get made no crossover appeal no promise of a big payoff But what if the money itself is color coded What if the economics that governs film production is so skewed that no film by about or for people of color will ever look like a worthy investment unless it follows specific racial or gender patterns This Monica Ndounou shows us is precisely the case In a work as revealing about the culture of filmmaking as it is about the distorted economics of African American film Ndounou clearly traces the insidious connections between history content and cash in black films How does history come into it Hollywood s reliance on past performance as a measure of potential success virtually guarantees that historically underrepresented underfunded and undersold African American films devalue the future prospects of black films So the cycle continues as it has for nearly a century Behind the scenes the numbers are far from neutral Analyzing the onscreen narratives and off screen circumstances behind nearly two thousand films featuring African Americans in leading and supporting roles including such recent productions as Bamboozled Beloved and Tyler Perry s Diary of a Mad Black Woman Ndounou exposes the cultural and racial constraints that limit not just the production but also the expression and creative freedom of black films Her wide ranging analysis reaches into questions of literature language speech and dialect film images and narrative acting theater and film business practices production history and financing and organizational history By uncovering the ideology behind profit driven industry practices that reshape narratives by about and for people of color this provocative work brings to light existing limitations and possibilities for reworking stories and business practices in theater literature and film
