¿Qué es la economía? Una región que se dedica a la producción, distribución y comercialización de productos básicos y servicios además de su consumo se denomina economía. En un sentido más amplio se entiende como un dominio social que pone énfasis en las actividades discursivas y representaciones materiales que están vinculados con la producción, el uso y la gestión de recursos limitados. Una economía es un conjunto de procesos cuyos factores principales incluyen la cultura, los valores, la educación, el avance tecnológico, la historia, la organización social, la estructura política, los sistemas legales y los recursos naturales de esa economía. Todas estas variables están entrelazadas. Estos elementos proporcionan el marco, determinan la naturaleza del contenido y proporcionan las condiciones y parámetros bajo los cuales opera una economía. Para decirlo de otra manera, la esfera económica es un ámbito social que consta de actos y transacciones humanas que están interconectados entre sí y no existen de forma aislada.
