**Information Systems Today** Leonard M. Jessup, Joseph S. Valacich, 2007-06-29  
Contemporary and student focused, this text provides the essentials of information systems that every business student needs to know.

**Information Systems Today** Joseph Valacich, Christoph Schneider, 2011-11-21  
This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. *Information Systems Today* shows readers how information technology and systems are continuing to expand within all aspects of today's organizations and society. The fifth edition focuses on how information systems are fueling globalization, making the world smaller and more competitive in virtually every industry and at an ever-increasing pace.

**Information Systems Today** Leonard M. Jessup, Joseph S. Valacich, 2008  
For the undergraduate/graduate introductory information systems course required of all business students, *Information Systems Today 3e* speaks directly to WHY IS MATTERS today by focusing on what every business student needs to know about IS, including its leading role in the globalization of business.

**e-Democracy** David Rios Insua, Simon French, 2010-09-02  
Internet is starting to permeate politics much as it has previously revolutionized education, business, or the arts. Thus, there is a growing interest in areas of e-government and more recently e-democracy. However, most attempts in this field have just envisioned standard political approaches facilitated by technology like e-voting or e-debating. Alternatively, we could devise a more transforming strategy based on deploying web-based group decision support tools and promote their use for public policy decision making. This book delineates how this approach could be implemented. It addresses foundations, basic methodologies, potential implementation, and applications together with a thorough discussion of the many challenging issues. This innovative text will be of interest to students, researchers, and practitioners in the fields of e-government, e-democracy, and e-participation and research in decision analysis, negotiation, analysis, and group decision support.
