Holocaust Memory and Racism in the Postwar World Shirli Gilbert, Avril Alba, 2019-07-08 Traces the history of connections between Holocaust memory and the discourse of anti racism The Holocaust is often invoked as a benchmark for talking about human rights abuses from slavery and apartheid to colonialism ethnic cleansing and genocide Western educators and politicians draw seemingly obvious lessons of tolerance and anti racism from the Nazi past and their work rests on the implicit assumption that Holocaust education and commemoration will expose the dangers of prejudice and promote peaceful coexistence *Holocaust Memory and Racism in the Postwar World* edited by Shirli Gilbert and Avril Alba challenges the notion that there is an unproblematic connection between Holocaust memory and the discourse of anti racism Through diverse case studies this volume historicizes how the Holocaust has shaped engagement with racism from the 1940s until the present demonstrating that contemporary assumptions are neither obvious nor inevitable *Holocaust Memory and Racism in the Postwar World* is divided into four sections The first section focuses on encounters between Nazism and racism during and immediately after World War II demonstrating not only that racist discourses and politics persisted in the postwar period but also perhaps more importantly that few people identified links with Nazi racism The second section explores Jewish motivations for participating in anti racist activism and the varying memories of the Holocaust that informed their work The third section historicizes the manifold ways in which the Holocaust has been conceptualized in literary settings exploring efforts to connect the Holocaust and racism in geographically culturally and temporally diverse settings The final section brings the volume into the present focusing on contemporary political causes for which the Holocaust provides a benchmark for racial equality and justice Together the contributions delineate the complex history of Holocaust memory recognize its contingency and provide a foundation from which to evaluate its moral legitimacy and political and social effectiveness *Holocaust Memory and Racism in the Postwar World* is intended for students and scholars of Holocaust and genocide studies professionals working in museums and heritage organizations and anyone interested in building on their knowledge of the Holocaust and the discourse of racism

Honest Patriots : Loving a Country Enough to Remember Its Misdeeds Donald W. Shriver Jr. President of the Faculty and William E. Dodge Professor of Applied Christianity Union Theological Seminary (Emeritus), 2005-02-18 In *Honest Patriots* renowned public theologian and ethicist Donald W Shriver Jr argues that we must acknowledge and repent of the morally negative events in our nation s past The failure to do so skews the relations of many Americans to one another breeds ongoing hostility and damages the health of our society Yet our civic identity today largely rests on denials forgetfulness and inattention to the memories of neighbors whose ancestors suffered great injustices at the hands of some dominant majority Shriver contends that repentance for these injustices must find a place in our political culture Such repentance must be carefully and deliberately cultivated through the accurate teaching of history by means of public symbols that embody both positive and negative memory and through public leadership to this end

Religious people and religious organizations have an important role to play in this process. Historically, the Christian tradition has concentrated on the personal dimensions of forgiveness and repentance to the near total neglect of their collective aspects. Recently, however, the idea of collective moral responsibility has gained new and public visibility. Official apologies for past collective injustice have multiplied along with calls for reparations. Shriver looks in detail at the examples of Germany and South Africa and their pioneering efforts to foster and express collective repentance. He then turns to the historic wrongs perpetrated against African Americans and Native Americans and to recent efforts by American citizens and governmental bodies to seek public justice by remembering public injustice. The call for collective repentance presents many challenges. What can it mean to morally master a past whose victims are dead and whose sufferings cannot be alleviated? What are the measures that lend substance to language and action expressing repentance? What symbolic and tangible acts produce credible turns away from past wrongs? What are the dynamics, psychological, social, and political, whereby we can safely consign an evil to the past? How can public life witness to corporate crimes of the past in such a way that descendants of victims can be confident that they will never be repeated? In his provocative answers to these questions, Shriver creates a compelling new vision of the collective repentance and apology that must precede real progress in relations between the races in this country.

Beyond Collective Memory Cullen Goldblatt, 2020-09-14. *Beyond Collective Memory* analyzes how two African places became icons of collective memory for certain publics yet remain marginal to national and continental memory discourses. Thiaroye, a Senegalese location of colonial era massacre, and District Six, a South African neighborhood destroyed under apartheid, have epitomized a shared memory of racist violence and resistant community. Analyzing diverse cultural texts surrounding both places, this book argues that the metaphor of collective memory has obscured the structural character of colonial and apartheid violence and made it difficult to explore the complicit positions that structures of violence produce. In investigating the elisions of memory discourses, *Beyond Collective Memory* challenges the dominance of collective memory and calls attention to the African pasts, metaphors, and imaginaries that exist beyond it.

Joint Acquisitions List of Africana ,1988 Abstracts Journal of the African Studies Centre Leiden Rijksuniversiteit te Leiden. Afrika-Studiecentrum,1985 *The State of the State* Louis A. Picard,2005 The State of the State breaks new ground by exploring political and socio economic issues about the nature of the South African state from the 1990s through the early 21st century Picard argues that the structural legacies of the apartheid state embedded in governmental planning bureaucratic and educational systems have a continuing impact on the new democratic government in South Africa The author argues that political and bureaucratic institutions are both important and limiting This book will appeal to a wide readership ranging from students of history politics and policy at undergraduate and postgraduate level to professionals studying public administration and management It should also appeal to practitioners in the field and to people interested more broadly in the history of the state in South Africa and the nature of the transition which took place in the 1990s
