

Economics AS Level Notes

Economics Definition – The study of how to allocate scarce resources in the most effective way

Economic Problem Definition – How to allocate scarce resources among alternative uses

Household Definition – A group of people whose spending decisions are connected

Microeconomics Definition – The study of how households and firms make decisions in markets

Macroeconomics Definition – The study of issues that affect economies as a whole

The Basic Economic Problem

The fact that **resources are scarce** compared to the **unlimited wants** → Choices having to be made

Goods Definition – Tangible products, i.e. products that can be seen and touched, such as cars, food and washing machines

Services Definition – Intangible Products, i.e. products that cannot be seen or touched, such as banking, beauty therapy and insurance

Factors of Production

Factors of Production Definition – The resource inputs that are available in an economy for the production of goods and services

The Four Factors:

Land – This is a **natural resource**. Things such as oil, coal, rivers and the **land itself**.

Labour – This is the **human resource** that is available in any economy / The quantity and quality of human resources

Some economies (generally poor countries) have large populations but lack a skilled workforce and for other countries like Germany with declining populations, they depend on immigrant workers to do both skilled and unskilled jobs. **Quality of labour is essential for economic progress.**

Capital - Man-made aids for production / Goods used to make other goods

It is combined with Land and Labour

MERC - Machines, Equipment, Robots and Computers

Entrepreneurship - The willingness of an entrepreneur to **take risks and organise production.**

Entrepreneur Definition - Someone who **bears the risks of businesses and who organises production.**

Lecture Notes For Economics Berkeley Haas:

Real Estate Economics Nicholas G. Pirounakis, 2013 Real Estate Economics A point to point handbook introduces the main tools and concepts of real estate RE economics It covers areas such as the relation between RE and the macro economy RE finance investment appraisal taxation demand and supply development market dynamics and price bubbles and price estimation It balances housing economics with commercial property economics and pays particular attention to the issue of property dynamics and bubbles something very topical in the aftermath of the US house price collapse that precipitated the global crisis of 2008 This textbook takes an international approach and introduces the student to the necessary toolbox of models required in order to properly understand the mechanics of real estate It combines theory technique real life cases and practical examples so that in the end the student is able to read and understand most RE papers published in peer reviewed journals make sense of the RE market or markets and contribute positively to the preparation of economic analyses of RE assets and markets soon after joining any company or other organization involved in RE investing appraisal management policy or research This book should be particularly useful to third year students of economics who may take up RE or urban economics as an optional course to postgraduate economics students who want to specialize in RE economics to graduates in management business administration civil engineering planning and law who are interested in RE as well as to RE practitioners and to students reading for RE related professional qualifications

The Future of EMarkets Martin Bichler, 2001 Dynamic pricing and on line auctions are emerging as the preferred models for e business Forrester Research predicts that business to business Internet auctions will grow to 52.6 billion by 2002 while dynamically priced business to business transactions will rise to 88 billion representing 27% of the value of all business to business e commerce transactions This multi disciplinary book presents a framework of negotiation protocols for electronic markets It is the first book to combine economics with computer science and the first to describe multidimensional auction mechanisms i.e. automated negotiations on multiple attributes and or multiple units of a product In addition it summarises the introductory economics needed to understand electronic markets and surveys the literature on negotiation and auction theory Case studies include the trading of financial derivatives For use in the design implementation and upgrade of electronic markets for researchers in economics information systems and operations management computer science and all students of the e commerce phenomenon

Empathy Economics Owen Ullmann, 2022-09-27 Named one of Investopedia's 7 Best Economics Books of 2022 The trailblazing story of Janet Yellen the Ruth Bader Ginsburg of economics and her lifelong advocacy for an economics of empathy that delivers the fruits of a prosperous society to people at the bottom half of the economic ladder When President Biden announced Janet Yellen as his choice for secretary of the treasury it was the peak moment of a remarkable life Not only the first woman in the more than two century history of the office Yellen is the first person to hold all three top economic policy jobs in the United States chair of both the Federal Reserve and the President's Council of Economic Advisors

as well as treasury secretary Through Owen Ullmann's intimate portrait we glean two remarkable aspects of Yellen's approach to economics first her commitment to putting those on the bottom half of the economic ladder at the center of economic policy and employing forward looking ideas to use the power of government to create a more prosperous productive life for everyone And second her ability to maintain humanity in a Washington policy world where fierce political combat casts others as either friend or enemy never more so than in our current age of polarization As Ullmann takes us through Yellen's life and work we clearly see her brilliance and meticulous preparation What stands out though is Yellen as an icon of progress the Ruth Bader Ginsburg of economics a superb yet different kind of player in a cold male dominated profession that all too often devises policies to benefit the already well to do With humility and compassion as her trademarks we see the influence of Yellen's father a physician whose pay what you can philosophy meant never turning anyone away That compassion rooted in her family life in Brooklyn now extends across our entire country
