Libro Sin Titulo:

The Cord Keepers Frank L. Salomon, 2004-10-29 None of the world's lost writings have proven more perplexing than the mysterious script in which the Inka Empire kept its records. Ancient Andean peoples encoded knowledge in knotted cords of cotton or wool called khipus. In *The Cord Keepers*, the distinguished anthropologist Frank Salomon breaks new ground with a close ethnography of one Andean village where villagers surprisingly have conserved a set of these enigmatic cords to the present day. The quipocamayos, as the villagers call them, form a sacred patrimony. Keying his reading to the internal life of the ancient kin groups that own the khipus, Salomon suggests that the multicolored cords with their knots and lavishly woven ornaments did not mimic speech as most systems of writing do but instead were anchored in nonverbal codes. *The Cord Keepers* makes a compelling argument for a close intrinsic link between rituals and visual sign systems. It indicates that while Andean graphic representation may differ radically from familiar ideas of writing, it may not lie beyond the reach of scholarly interpretation. In 1994, Salomon witnessed the use of khipus as civic regalia on the heights of Tupicocha in Peru's central Huarochir region. By observing the rich ritual surrounding them, studying the village's written records from past centuries, and analyzing the khipus themselves, Salomon opens a fresh chapter in the quest for khipu decipherment. He draws on a decade's field research, early colonial records, and radiocarbon and fiber analysis. Challenging the prevailing idea that the use of khipus ended under early Spanish colonial rule, Salomon reveals that these beautiful objects served apparently as late as the early twentieth century to document households' contribution to their kin groups and these kin groups' contribution to their village. *The Cord Keepers* is a major contribution to Andean history and more broadly to understandings of writing and literacy.
