*From Millwrights to Shipwrights to the Twenty-first Century* R. John Brockmann, 1998 This text divides the history of American technical communication into three themes the importance of visual communication 1791 1887 the power of genre 1791 1980 and the role of technical communicators as innovators within constraints 1948 1954 **Preparing for the Twenty-first Century** Mary G. Bliss, 1999 *Cross-cultural Communication* Thomas Warren, 2017-03-02 Cross Cultural Communication is a collection of essays that examines how practitioners can improve the acceptance of their documentation when communicating to cultures other than their own The essays begin by examining the cross cultural issues relating to quality in documentation From there the essays look at examples of common documents analysing them from several perspectives Specifically the author uses communication theories such as Bernstein s Elaborated and Restricted Code theory and Marwell and Schmidt s Compliance Gaining theory to show how documents used by readers who are not native speakers of English can be written and organized to increase their effectiveness The principal assumption about how practitioners create their documents is that while large organizations can afford to write translate and then localize small to medium size organizations produce many documents that are used directly by people in other cultures often without translating and

localizing The advantage the writer gains from these essays is in understanding the strategies and knowing the kinds of strategies to apply in specific situations In addition the essays can serve as a valuable resource for students and teachers alike as they determine ways to understand how cross cultural communication is different and why it makes a difference Not only do students need to be aware of the various strategies they may apply when creating documents for cross cultural settings they also need to see how research can apply theories from different areas in the case of these essays communication and rhetorical theories Another value of the essays is to show the students the role standards play in cross cultural communication standards are written by committees that follow style rules developed by the International Standardization Organization in Geneva Thus both students and practitioners can find valuable cross cultural communication advice in these essays

Invention, Copyright, and Digital Writing Martine Courant Rife,2013-01-31 This is the first empirical mixed methods study of copyright issues that speaks to writing specialists and legal scholars about the complicated intersections of rhetoric technology copyright law and writing for the Internet Martine Courant Rife opens up new conversations about how invention and copyright work together in the composing process for digital writers and how this relationship is central to contemporary issues in composition pedagogy and curriculum In this era of digital writing and publishing composition and legal scholars have identified various problems with writers processes and the law s construction of textual ownership such as issues of appropriation infringement and fair use within academic and online contexts Invention Copyright and Digital Writing unpacks digital writers complex perceptions of copyright revealing how it influences what they choose to write and how it complicates their work Rife uses quantitative and qualitative approaches and focuses on writing as a tool and a technology mediated activity arguing the copyright problem is about not law but invention and the attendant issues of authorship Looking at copyright and writing through a rhetorical lens Rife leverages the tools and history of rhetoric to offer insights into how some of our most ancient concepts inform our understanding of the problems copyright law creates for writers In this innovative study that will be of interest to professional and technical writers scholars and students of writing and rhetoric and legal professionals Rife offers possibilities for future research teaching curriculum design and public advocacy in regard to composition and changing copyright laws
