Successfully cleared the AWS Solutions Architect Associate SAA C03 with a score of 824 surpassing my expectations The
exam presented a mix of question difficulties with prominent topics being Kinesis Lakeformation Big Data tools and S3 Given
the declining cybersecurity job market in Europe post 2021 I m contemplating a transition to cloud engineering For
preparation I leveraged Stephane Mareek s course Tutorial dojo s practice tests and flashcards My manager also shared his
AWS skill builder account Post evaluation I found Mareek s practice tests to be outdated and more challenging than required
with his course delving too deeply into some areas In contrast Tutorial dojo s materials were simpler My scores ranged from
65% on Mareek s tests to 75 80% on Tutorial dojo with a 740 on the official AWS practice test Sharing this for those on a
