Reinventing Food Banks and Pantries Katie S. Martin, 2021-03-09 In the US there is a wide ranging network of at least 370 food banks and more than 60 000 hunger relief organizations such as food pantries and meal programs These groups provide billions of meals a year to people in need And yet hunger still affects one in nine Americans What are we doing wrong In Reinventing Food Banks and Pantries Katie Martin argues that if handing out more and more food was the answer we would have solved the problem of hunger decades ago Martin instead presents a new model for charitable food one where success is measured not by pounds of food distributed but by lives changed The key is to focus on the root causes of hunger When we shift our attention to strategies that build empathy equity and political will we can implement real solutions Martin shares those solutions in a warm engaging style with simple steps that anyone working or volunteering at a food bank or pantry can take today Some are short term strategies to create a more dignified experience for food pantry clients providing client choice where individuals select their own food or redesigning a waiting room with better seating and a designated greeter Some are longer term increasing the supply of healthy food offering job training programs or connecting clients to other social services And some are big picture joining the fight for living wages and a stronger social safety net These strategies are illustrated through inspiring success stories and backed up by scientific research Throughout readers will find a wealth of proven ideas to make their charitable food organizations more empathetic and more effective As Martin writes it takes more than food to end hunger Picking up this insightful lively book is a great first step

Radical Charity Christopher Marlin-Warfield, 2019-06-05 Right now there is a movement in churches and nonprofits arguing that charity is toxic that helping hurts and that the entire nonprofit sector needs to be reformed to truly lift people out of poverty These charity skeptics are telling Christians that traditional charity deepens dependency fosters a sense of entitlement and erodes the work ethic of people who receive it

Charity skepticism is increasingly popular and it is almost certainly wrong Radical Charity weaves together research and scholarship on topics as diverse as biblical scholarship Christian history economics and behavioral psychology to tell a different story In this story charity is the heart of Christianity and one of the most effective ways that we can help people who are living in poverty Charity giving to people experiencing poverty without any expectation of return or reformation can save the world and help make God s vision for the church a reality Training Supplement for Bridges Out of Poverty Ruby K. Payne, Philip E. DeVol, Terie Dreussi-Smith, 2023 If you didn t grow up in poverty you may be unaware of the hidden rules that govern many aspects of life for the poor People in poverty are often in survival mode and support systems taken for granted in middle class and wealth are nonexistent If your business agency or organization works with people from poverty a deeper understanding of their challenges and strengths helps you partner with them to create opportunities for success Bridges Out of Poverty is a unique and powerful tool designed for social health and legal services professionals Based in part on Dr Ruby Payne s myth shattering A Framework for Understanding Poverty Bridges reaches out to millions of service providers and businesses whose daily work connects them with people in poverty You ll find case studies detailed analysis helpful charts and exercises and specific solutions you and your organization can implement right now Back cover **Bridges Out of Poverty**, 2007* PowerPoint presentation for a two day workshop designed to present a framework for understanding poverty and the skills policies and procedures to enable communities and organizations to work more effectively with people who are in poverty **Suspended For Life** C. Twiggy Billue, 2014-07-16 SUSPENDED FOR LIFE takes an empirical look via real experiences at how Zero Tolerance Policies contained in the schools Code of Conduct disregards the rights of the student especially students with disabilities These policies are failing students everywhere including my residence of Syracuse New York Statistically these unfair and biased Zero Tolerance Policies have led to very high suspension rates affecting mainly inner city students but overwhelmingly target students with IEPs 504 Accommodations the untested but suspected LD student and the intellectually gifted student Healthcare Mental Health and Medical Privacy HIPPA now play large roles in school especially in decisions to suspend a student however coupled with a school districts Code of Conduct they have become a crucial aspect for suspension Once you understand the link between a referral to In School Suspension ISS warehousing students or a referral for Out of School Suspension OSS push out of students you will realize that in most cases suspension can lead directly to the prison industrial complex for our young women and men Stopping this from happening to your student may depend on how well you are prepared to advocate for your child We must not allow suspension to push out our children because ostensibly it may be ensuring them a life sentence of unemployment crime or even death We say it starts at home with the parents so if we can better understand our student s rights and the rights we have as parents we can better prepare ourselves to advocate for our student and to hold the school district accountable for the Education of Our Children **Training Supplement for Bridges Out of Poverty Third Edition** Philip E.
