with and wrote to could understand how they should live and why they should live like that Thus there is an important connection among ethics eschatology and education All people were to work to their potential at their job because in doing their job they would honor God Teachers were especially important Those who taught would affect the quality of education Calvin worked to provide teacher training and support He believed that all occupations could be a special calling from God and education was a means to prepare the young person for his or her calling Schools existed in Geneva before Calvin arrived in 1536 however they did not function in the way that Calvin would have liked Calvin provided the elementary students with a needed text when he prepared a catechism The students had written material that they could read and study and a systematic presentation of the basic doctrines of the Christian faith Calvin also wanted more appropriate facilities in which the students could learn Although his organization of the schools improved the atmosphere for learning the building of the Academy was his dream and became his major educational achievement in the city of Geneva Because 16th century students needed to be prepared for the new world there was a need for curriculum change The students were required to read many of the prominent Greek and Roman authors in the ancient languages but the student learned theology Hebrew poetry dialectic and rhetoric physics and mathematics as well Calvin wished to graduate a well rounded scholar who could take his or her place in society In this way the citizens of Geneva and all those of the Reformed belief would be better prepared for life on earth and the after life
