The Journal of Education Thomas Williams Bicknell, Albert Edward Winship, Anson Wood Belding, 1928 **Journal of Education**, 1928 *Environmental Education in Indonesia* Lyn Parker, Kelsie Prabawa-Sear, 2019-08-08 Indonesia's wealth of natural resources is being exploited at breakneck speed and environmental awareness and knowledge among the populace is limited This book examines how young people learn about the environment to see how education can help to develop environmental awareness and avert vast environmental destruction not only in Indonesia but also in the Global South more generally Based on in depth studies conducted in the cities of Yogyakarta and Surabaya complemented with surveys of students in secondary schools Environmental Education in Indonesia examines educational curricula pedagogy and green activities to reveal what is currently being done in schools to educate children about the environment The book investigates the shortcomings in environment education including underqualified teachers the civil service mentality the still pervasive chalk and talk pedagogy and the effect of the examination system It also analyses the role of local government in supporting or not environmental education and the contribution of environmental NGOs The book establishes that young people are not currently being exposed to effective environmental education and the authors propose that the best and most culturally appropriate way forward in Indonesia is to frame pro environment behaviour and responsibility as a form of citizenship and specifically that environmental education should be taught as a separate subject This book will be of great interest to students and scholars of contemporary Indonesia and Southeast Asia education for sustainability and environmental education as well as sustainability and sustainable development more generally The Open Access version of this book available at <http://www.tandfebooks.com/doi/view/10.4324/9780429397981> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license *A Textbook on School Subjects, Drawing and Pedagogics ... International Correspondence Schools*, 1902 *The New Scholarship on Dewey* James W. Garrison, 2012-12-06 Since 1979 when Richard Rorty's *Philosophy and the Mirror of Nature* appeared there has been a flood of new scholarship on the philosophy of John Dewey Surprisingly little of this scholarship has thus far made its way into the field of education where Dewey's philosophy has traditionally had a wide influence Many of the authors of this collection are philosophers who have created some of the most original and influential work in this new scholarship Five of them Larry Hickman Thomas M Alexander Raymond D Boisvert and J E Tiles have written major books that have received wide international acclaim Among the philosophers of education some like Philip W Jackson are among the best known names in the entire international field and have kept pace with Deweyan scholarship for many years Others are younger scholars who know the new scholarship well Finally two prominent feminists contribute important new work on Dewey expanding the domain of the new scholarship on Dewey One of them Susan Laird has had her work cited in the new biography of John Dewey by Robert Westbrook

Educational Psychology for Teachers Anita Woolfolk Hoy, Lorraine McCune-Nicolich, 1980 **Discourse Analytic**

Perspectives on STEM Education Juliet Langman, Holly Hansen-Thomas, 2017-05-23 This volume explores the nature of discourse in secondary and upper elementary mathematics and science classrooms Chapters examine conditions that support or hinder teachers and students in particular language learners in employing language as a tool for learning The volume provides rich oral and written language examples from a range of classroom contexts to illustrate how linguistic practices affect students appropriation and display of disciplinary specific knowledge Chapters further explore linguistic practices through with the support of discourse analytic models that foreground the authentic classroom data with the aim of understanding the dynamics of the classroom The authors investigate the intersection between discourse and learning from a range of perspectives including an examination of key concepts such as intertextuality interaction mediation scaffolding appropriation and adaptations This volume offers concrete suggestions on how teachers might benefit from a discourse approach to teaching in the areas of mathematics and science

Education, Citizenship, and Cuban Identity Rosi Smith, 2016-07-13 This book explores how Cuba's famously successful and inclusive education system has formed young Cubans political social and moral identities in a country transfigured by new inequalities and moral compromises made in the name of survival The author examines this educational experience from the perspective of those who grew up in the years of economic crisis following the fall of the Soviet Union charting their ideals their frustrations and their struggle to reconcile revolutionary rhetoric with twenty first century reality

Beyond Schooling David H. Hargreaves, 2019-04-11 Provocative and engagingly written Beyond Schooling offers a challenging perspective on State schooling in England and the unrelenting increase in centralisation from the late 1960s until the present

day Exploring how the education of our children and young people should be recaptured from the State as the country moves into a precarious future this book argues that any fundamental reconsideration of schooling has much to learn from an anarchist analysis introduces readers unfamiliar with anarchism to the main themes of this political philosophy and practice and their relationship to the political left and right shows how an anarchist perspective on education raises deep issues about the community and the use of power questions the notions of full time schooling and age grading alongside conventional conceptions of the teaching profession and the potential educational role of parents as work declines or disappears In its original reflections on the state of contemporary schooling and the paths to future reform Beyond Schooling is a must read for anyone seeking a new vision for the future of education and schooling **The American Mathematical Monthly** ,1930 Includes section Recent publications **The Nation** ,1912 *New York* ,1971 English Mechanic and Mirror of Science and Art ,1901 World Oil ,1958 Vols for 1946 47 include as sect 2 of a regular no World oil atlas **The Oil and Gas Journal** ,1958-05
