

# SAP Web Dynpro ABAP Interview Questions with Answers

## Controllers in Web Dynpro:

**Question 1:** What are the types of Controllers in Web Dynpro ABAP?

The types of controllers are listed in the screenshot below:

Types of Controllers in webdynpro ABAP

**Question 2:** What is Component Controller?

**Component Controller is the King of all Controllers.** It is the backbone of your Web Dynpro Component . It is like a Global or Top Include for your program . It controls the entire activity of your Web Dynpro Component.

**Question 3:** What is an Interface Controller?

Whenever we want Views , nodes or methods of a particular web dynpro component to be available to other the outside world ( i.e. other webdynpro components) , we make use of Interface controller . Interface Controller is created by default when a webdynpro component is created .Interface Controller would generally come into picture when you are doing component usage of some sort in web dynpro i.e. its using views/methods/nodes of one WD component in another.

**Question 4:** What is Custom Controller?

When your Component Controller grows big in size ( say more than 10-15 views and corresponding context nodes , methods , events , event handlers etc) , it might become tough to handle everything in the Component Controller . In such a scenario , you can create one or more custom controllers and modularize or segregate the logic into separate parts using Custom Controller.

**Question 5:** Would you prefer creating multiple Custom Controllers OR would you go for separate Web Dynpro components and then do Component usage .

This would actually depend on the requirement , but ideally separate Web dynpro components should be created and reused. One can also use the assistance class for segregating business logic.

**Question 6:** How many component controllers can a Web Dynpro Component have ?

Component Controller is only one . You can create multiple controllers , but those are called Custom Controllers.

**Note:** If you are asked about the Web Dynpro architecture , you should talk about both the MVC framework and the controllers.

**Question 7:** Suppose your Web Dynpro has 10 nodes in the Component Context . Will all 10 the nodes be available in the Interface controller?

Nodes from the Component context are available to the interface controller only when the nodes are declared as interface nodes. To create an interface node , set the interface property to yes as shown in the screenshot below:

Interface Node in Webdynpro ABAP

To create an interface node , set the interface property to yes as shown in the screenshot to the right :

Once created , the interface node is indicated by a special symbol as shown in the figure below and the property Interface Node is set to yes.

# Interview Questions And Answers On Sap Web Dynpro

**105 SAP Basis (System Administration) Interview Questions with Answers and Explanations** N. Thind, Kristine K, 2012-06-21 What does it take to gain entry into the fascinating lucrative world of SAP System Administration A successful Interview In fact for contracting jobs all it takes is a half an hour telephone interview before you get your first break Though the interview procedure is more drawn out for permanent job there is normally only ever One technical interview A successful interview can provide you with that break which will be the first step to a career in the SAP World So what are the interviewers looking for For an associate level position less than 2 year s System Admin project experience here is what the interviewers typically look for Decent overall knowledge of SAP System Administration Deep knowledge in at least one or two area e g BW Oracle etc Ability to work in a team environment As you are a junior you will probably be working as part of a larger team Ability to find relevant technical information With System Administration being so wide no single consultant is reasonably expected to know everything However you should have the skills to find out more wherever required The kind of questions asked at the associate level interview are less to do with tables and fields and more to do with your approach to a project issue or a support Issue This is something that can only come with experience or if you receive some coaching from experienced consultants So how would you like some insider knowledge of what kind of questions are asked in an actual Basis System Administration interview and what kind of response gets you the green light By reading this book Why should you buy this book Current Questions that are being asked in Interviews TODAY Every single question is based on project knowledge and personal experience Divided into Basis functionality areas for easy reading Covers the most important concepts configuration settings Focus on business scenarios Some unique features of this book The Question are ACTUAL questions asked in some of the regular interviews that the likes of Accenture IBM do How do we know Because we do some of these interviews The questions available on google are almost never asked in a Real interview This book contains Questions that are NOT available anywhere else The authors have a combined experience of over 20 years in SAP

*105 SAP Security Interview Questions with Answers and Explanations* J. Jerome, S. Kaur, 2012-12-01 Why should you buy this book Current Questions that are being asked in Interviews TODAY Every single question is based on project knowledge and personal experience Divided into main Subject areas for easy reading Covers the most important concepts configuration settings Focus on business scenarios Some unique features of this book The Question are ACTUAL questions asked in some of the regular interviews that the likes of Accenture IBM do How do we know Because we do some of these interviews The questions available on google are almost never asked in a Real interview This book contains Questions that are NOT available anywhere else The author himself has over 12 years of SAP Experience

**SAP ABAP Interview Questions, Answers, and Explanations** Barry Fewer, 2006
