**Keiko Nakayama, Yuzuru Miyata**

## **Introduction To Environmental Economics Nagoya University:**

**Empirical Research on Environmental Policies in China** Kiyoshi Fujikawa,2024-01-08 This book presents an empirical study of the effects of environmental policies on China and its neighboring countries with a focus on waste and climate policies in China The two major carbon policies have to do with carbon markets and renewable energy The authors first examine the effectiveness of the Asian carbon market Because of the consumption of goods beyond provincial borders nationwide carbon markets are rather difficult to operate therefore a desirable initial allocation in the carbon market is proposed in this book As for renewable power its sources have not been fully utilized owing to a regional mismatch of supply and demand so optimal locations of renewable energy are shown The book also contains an analysis of the environmental and economic impacts of changes in resource circulation in East Asia Although motorization is advancing rapidly the vein industry for recycling used cars has not progressed The authors estimate the amount of materials from used cars including new energy vehicles electric and fuel cell vehicles and propose desirable policies for used vehicles East Asia is interdependent with respect to carbon and waste as well as the economy China has regulated the import of waste recently and has started recycling its own wastes putting pressure on neighboring countries to recycle their waste domestically The authors estimate the environmental and economic impacts of such policy changes

**Basic Studies in Environmental Knowledge, Technology, Evaluation, and Strategy** Takayuki Shimaoka,Takahiro Kuba,Hirofumi Nakayama,Toshiyuki Fujita,Nobuhiro Horii,2016-02-22 This book covers diverse environmental issues such as climate change biodiversity preservation prevention of air water and soil pollution and resource recycling Readers can acquire these four practical interdisciplinary abilities 1 knowledge 2 technology 3 evaluation and 4 strategy in the diverse issues related to the environment These abilities are fundamental to identifying the core essence of economic and ecological interdependence to look at and analyze problems from an overarching perspective and to consider countermeasures to be taken Each chapter of this book corresponds to a lecture in the East Asia Environmental Strategist Training Program at Kyushu University and is excellent reading as a sourcebook

[The Routledge Handbook of Environmental Economics in Asia](#) Shunsuke Managi,2015-02-11 Problems of climate change biodiversity and air pollution are clearly growing globally but more particularly in Asia because of its economic importance and richness in nature The increasing interest in environmental and resource economics applied in regions of Asia will make this book an outstanding resource to the existing literature particularly in the fields of environmental and resource economics and the integration of applied content in traditional and agricultural development At present there is no single handbook or text on the state of current knowledge in environmental economics in Asia or one which offers a comprehensive guide to students and academics on the subjects of environmental economics research This book will help to fill the gap in the existing literature

**Economic History of Energy and Environment** S. Sugiyama,2015-05-15 This book is the first volume of a monograph series published by the Socio Economic

History Society Japan The purpose of the series is to make works by Japanese scholars accessible to a wider readership and to increase the knowledge of scholars in this field particularly in relation to Asia This volume includes four chapters on energy and the environment of Japan China and Britain and four short book reviews on recent academic works published in Japanese and English The four chapters cover the following topics the relationship between deforestation and the development of the silk reeling industry in a district of Nagano Prefecture central Japan from the 1870s to the 1900s and the subsequent shift from firewood to coal the importance of timber supplies for the development of industry as illustrated by a case study on the supply of timber for use as rail sleepers in the Japanese national railway network during the prewar period a methodological survey of the history of ecology and the environment in China and an analysis of the British Smoke Nuisance Abatement Act of 1821 as a measure that incorporated the interests of politicians landlords and industrialists

**Theoretical and Empirical Analysis in Environmental Economics** Keiko Nakayama, Yuzuru Miyata, 2019-05-17 This monograph presents potential remedies for some of the current environmental issues in developed countries in a theoretical or empirical manner with the interdisciplinary approaches of economics statistics and engineering The book illustrates effective economic and environmental policies for environmental challenges and factors where corrective policies to date may have failed The importance of this essential book has is related to the transition in the major concerns of the people or governments in developed countries shifting from economic growth to the stability of life and environmental preservation as their economies have matured The environmental issues dealt with here include forest environment tax introduced as part of local taxes air pollution reduction policies for mobile emission sources introduction of renewable energies and power fuel cell technology the mechanism of city agglomeration and dispersion and measurement of environmental sustainability In analytical methods some research employs theoretical approaches such as the mathematical economic model or nonlinear dynamic model Other analyses are implemented with empirical or statistical tools such as the long run general equilibrium model the input output model and the dynamic optimization model among others Urban and Industrial Management in Developing Countries Wilfrido Cruz, Kazuhiko Takemoto, Jeremy J. Warford, 1998-01-01 This book summarizes the key features of Japan's work to resolve the urban and industrial pollution problems stemming from its rapid post war industrial expansion Drawing upon views expressed by Japanese and participants from other East Asian countries in an international workshop this book identifies the main areas in which developing countries may profit from the Japanese example The report also contains a series of short essays by Japanese experts on Japan's environmental management history recent trends in Japanese environmental indicators and summaries of key themes that emerged during the workshop *Urban Development, Transport and the Environment*, 1995 **International Trade and Economic Dynamics** Takashi Kamihigashi, Laixun Zhao, 2008-10-16 Renowned trade theorist Koji Shimomura passed away in February 2007 at the age of 54 He published nearly 100 articles in international academic journals The loss of this extremely productive economist has been an enormous

shock to the economic profession This volume has emerged from the great desire on the part of the profession to honor his contributions to economic research Contributors include authoritative figures in trade theory such as Murray Kemp Ronald Jones Henry Wan and Wilfred Ethier world renowned macroeconomists such as Stephen Turnovski and Costas Azariadis and leading Japanese economists such as Kazuo Nishimura Makoto Yano Ryuzo Sato and Koichi Hamada This broad range of contributors reflects Koji Shimomura s many connections as well as the respect he earned in the economic profession This volume offers the reader a rare opportunity to learn the views of so many renowned economists from different schools of thought

The Environment and Transport Yoshitsugu Hayashi, Kenneth Button, Peter Nijkamp, 1999 This reference offers information to practitioners and students in the field of environmental studies by showing key articles on the subject over the years 1979 to 1999 Topics covered include pollution the effects of traffic on the environment and regional and national control development

*Climate Change 2001: The Scientific Basis* J. T. Houghton, Y. Ding, D. J. Griggs, M. Noguer, P. J. van der Linden, X. Dai, K. Maskell, C. A. Johnson, 2001-07-12 Climate Change 2001 The Scientific Basis is the most comprehensive and up to date scientific assessment of past present and future climate change The report Analyses an enormous body of observations of all parts of the climate system Catalogues increasing concentrations of atmospheric greenhouse gases Assesses our understanding of the processes and feedbacks which govern the climate system Projects scenarios of future climate change using a wide range of models of future emissions of greenhouse gases and aerosols Makes a detailed study of whether a human influence on climate can be identified Suggests gaps in information and understanding that remain in our knowledge of climate change and how these might be addressed This latest IPCC assessment will again form the standard scientific reference for all concerned with climate change and its consequences including students and researchers in all aspects of environmental and atmospheric science and policymakers in governments and industry worldwide

The Chinese Belt and Road Initiative Filip De Beule, Philippe De Lombaerde, Haiyan Zhang, 2024-10-18 China faces significant hurdles in implementing its Belt and Road Initiative Since its launch a decade ago the BRI has become a crucial component of Chinese external economic relations It has the potential to alter the economic and political landscape of Asia but also Europe As such the Belt and Road initiative have placed China at the heart of geopolitics in the Eurasian region but also globally Therefore China faces significant hurdles in implementing these initiatives with many countries and organizations around the world becoming increasingly weary of China s BRI and geopolitical strategy This book examines these issues of the BRI and analyzes the impact of the BRI on Chinese involvement in Asia and Europe It sheds light on the strategic responses of host country governments and regional economic organizations as well as the reactions of Chinese and other multinational companies and ultimately the Chinese government This book will appeal to scholars researchers and practitioners of International Business and Policy particularly those interested in the BRI and China s geo economic influence The chapters in this book were originally published as a special issue of Asia Pacific Business Review

Climate Change 2001: Impacts,

Adaptation, and Vulnerability James J. McCarthy, Intergovernmental Panel on Climate Change. Working Group II., 2001-07-02  
Climate Change 2001 Impacts Adaptation and Vulnerability is the most comprehensive and up to date scientific assessment of the consequences of and adaptation responses to climate change The report Evaluates evidence that recent observed changes in climate have already affected a variety of physical and biological systems Studies the vulnerabilities of human populations to future climate change including associated sea level rise and climate extremes such as floods Takes into account potential impacts on water resources agriculture and food human health settlements and economic activities Assesses potential responses to climate change of natural environments and the wildlife that inhabit them and identifies environments at particular risk Considers how adaptation to climate change might lessen adverse impacts or enhance beneficial impacts Provides an overview of the vulnerabilities and adaptation possibilities for all major regions of the world Contrasts the different vulnerabilities of the developed and developing parts of the world and explores the implications for sustainable development and equity concerns This latest IPCC assessment will again form the standard scientific reference for all concerned with environmental and social consequences of climate change including students and researchers in environmental and social sciences and policymakers and managers in governmental industry and other organizations responsible for resources likely to be affected by climate change

**Civilising Transport** Planning and Transport Research and Computation (International) Co. Meeting, Planning and Transport Research and Computation International Association, 1991

*Environmental Systems Planning, Design, and Control* Yoshikazu Sawaragi, Hajime Akashi, International Federation of Automatic Control, 1978

**Environmental Education and Information**, 1981

*Environmental Governance for Sustainable Development* Akihisa Mori, 2013 In order to advance sustainable development it is crucial to change the course and mode of conventional economic growth in East Asia which has enjoyed rapid economic growth of late but faces substantial environmental challenges This volume focuses on the evolution of multilevel environmental governance in the East Asian region including both Northeast and Southeast Asia It examines how effective emerging environmental governance and policy have been and addresses the underlying causes of local national regional and global environmental challenges Specific topics include democratization and its effect on decisionmaking processes international environmental aid economic analysis of carbon reduction policy regional and global environmental regimes and subsequent new financial mechanisms and hybrid systems of environmental governance that emphasize the role of the private sector and civil society in contributing to environmental governance The book gives special attention to the regional economic and environmental regimes It analyzes the advantages challenges and solutions in addressing local national regional and global environmental challenges and in changing the course of economic growth
