Philosophy asks the big questions of life: What is it to be a fully developed human being? Am I in control of my destiny? What kind of world are we living in—for example, do the gods or a God exist? How do we know these things—should we believe based on tradition, feelings, faith, evidence? And what difference does it make—what is the best kind of life to live? We will grapple with fundamental philosophical issues and discuss the views of major thinkers in the Western intellectual tradition.
