ICT Systems and Sustainability Milan Tuba, Shyam Akashe, Amit Joshi, 2025-03-26 This book proposes new technologies and discusses future solutions for ICT design infrastructures as reflected in high quality papers presented at the 8th International Conference on ICT for Sustainable Development ICT4SD 2024 held in Goa India on 8-9 August 2024. The book covers the topics such as big data and data mining, data fusion, IoT programming toolkits and frameworks, green communication systems and network use of ICT in smart cities, sensor networks and embedded system network and information security, wireless and optical networks security, trust and privacy, routing and control protocols, cognitive radio and networks and natural language processing. Bringing together experts from different countries, the book explores a range of central issues from an international perspective.

LISS 2012 Zhenji Zhang, Runlong Zhang, Juliang Zhang, 2013-03-19 Information and communication technology has helped to provide a more effective network infrastructure and development platform for logistics and service operations. In order to meet the needs of consumers and particularly to promote low carbon development processes, new types of services will also emerge. LISS 2012 is a prime international forum for both researchers and industry practitioners to exchange the latest fundamental advances in the state of the art and practice of logistics informatics, service operations and service science. Experts and researchers from related fields will discuss current issues and future development opportunities, discuss and analyze developing trends and exchange the latest research and academic thought. The theme of the conference is Logistics and Service Science based on the Internet of Things.

Secured Techno-Economic Growth of India Dr. P. Sekhar, The book explores sector wise dimensions of security and how security undermines India's capacity to provide opportunities and services to help people sustain livelihoods. In addition, it focuses on some non-traditional security issues relative to each sector and their security implications for India. While India will continue to grow at a healthy rate, it is important for India to provide a stable economic environment in which we can grow rapidly and attract investments. The object of economic activity in any country is to promote the well-being and standard of living of the people. This book is an exhaustive effort to overview India as a nation which has a sound economic and social infrastructure. The economic infrastructure includes the roads, airports, railways, ports, telecom and power. Education and training, tourism and health services are included in the social infrastructure. It also reflects on the fact that despite being a highly industrialized country, agriculture is the main occupation of the people of India. This book examines growth experience in various states, region and sectors of the India's and Growth components of India. This Book describes policies, roles and responsibilities and the concept of operations for assessing, prioritizing, protecting and restoring critical infrastructure and key resources. CIKR of the India and its territories and possessions during actual or potential security risks. Hence the book attempts to identify principal drivers of the economy in India and their contribution to economic growth. The sectors are Industry, Power, Education, Agriculture, Healthcare, Telecom, Banking, Real estate, Transport, Tourism etc. The entire growth

process will come to a screeching halt if security concerns are not timely and adequately addressed and the value addition comes with prevention response restoration and recovery efforts when there is full participation of government and industry partners
