

# APA 7th Citation Format

Surname, A., & Surname, B. (Year). Title. Journal, Volume. URL.

When you had three to five authors, it was necessary to list them all in APA 6th edition and only then use the "et al." part. Now the newest edition must use "et al." citing when you have three or more than three authors.

No need to include the publisher's location like a city or state after the publisher's name in a reference anymore. It had to be provided in APA 6.

When you had a secondary source citing, there was no need to include the date of your original source. The new addition requires it added.

The words "Retrieved from" or "Accessed from" are no longer necessary before the URL in APA 7.
