

Assessment Directions for 1st Grade Teachers & Parents:

Literacy Resources, Inc. created this Phonemic Awareness & Phonics Assessment to align to the Common Core State Standards for 1st grade and to assess a child's progress with phonemic awareness and phonics throughout the school year. The skills are labeled with the Reading Foundations Common Core State Standard for Grade 1. Each phonemic awareness skill that is assessed is part of the daily phonemic awareness lessons written by Dr. Michael Heggerty, founder of Literacy Resources, Inc.

Phonemic Awareness is auditory, and should be assessed in this way. Students are not expected to read or write any of the words in the phonemic awareness portion of the assessment; the teacher says the words or sounds aloud and the student responds orally.

A phoneme is the smallest unit of sound. Students are asked to respond with the sounds the letters make, not the letter name. As the assessment administrator, you will be providing students with letter sounds, not letter names.

There are student pages included for the Phonics Skills assessments. The End-of-the-Year assessment includes an optional section for assessing prefixes (Skill 5). This skill is not expected until 2nd grade under the Common Core State Standards, but many teachers introduce this concept during the 1st grade school year.

Assessment Administration Guidelines:

The assessments are meant to inform your instruction. We have created three assessments that can be given throughout the school year to monitor student progress. The three assessments can be given at the beginning of the year, at the midpoint of the school year, and at the end of the school year.

When using the provided student assessment pages, you may use another piece of paper or a bookmark to cover most of the page, so that only one line of print is shown to the student when he or she is responding.

There is a section on each assessment for teachers to include comments and an evaluation of the student's strengths and areas of need. This can be especially helpful when planning intervention activities to help a child master a skill.

Please contact Literacy Resources, Inc. with any questions or comments about the assessments:
