essential role in educating and providing professional human resources and conducting high quality research that benefits humanity. However, universities must take a more significant part and be innovative and creative in engaging and supporting the development opportunities and consolidation of the Global community. To embark on this role effectively, universities must always foster communication and discussion among academicians, scholars, practitioners, and policymakers under the Sustainability Development Goals (SDGs). Academia, Government, Business, and Communities must increasingly cooperate to achieve academic and research excellence and constructive solutions to current business and economic issues. Sustainable Collaboration in Business Information and Innovation (SCBTII) 2023 is an international conference that brings together academics, professionals, entrepreneurs, researchers, learners, and other associated groups from all over the world that is interested in theories as well as practices in the field of the digital economy for global competitiveness.
