AN Whitehead

Four Futures Life After Capitalism Jacobin:

Four Futures Peter Frase, 2016-10-11 An invigorating vision of four post capitalist futures that consider the intersections of technology the environment and modern politics The Guardian Peter Frase argues that increasing automation and a growing scarcity of resources thanks to climate change will bring it all tumbling down In *Four Futures* Frase imagines how this post capitalist world might look deploying the tools of both social science and speculative fiction to explore what communism rentism socialism and exterminism might actually entail Could the current rise of real life robocops usher in a world that resembles Ender s Game And sure communism will bring an end to material scarcities and inequalities of wealth but there s no guarantee that social hierarchies governed by an economy of likes wouldn t rise to take their place A whirlwind tour through science fiction social theory and the new technologies already shaping our lives *Four Futures* is a balance sheet of the socialisms we may reach if a resurgent Left is successful and the barbarisms we may be consigned to if those movements fail *Four Futures* Peter Frase, 2015 It is easier to imagine the end of the world the theorist Fredric Jameson has remarked than to imagine the end of capitalism Jacobin Editor Peter Frase argues that technological advancements and environmental threats will inevitably push our society beyond capitalism and *Four Futures* imagines just how this might look Extrapolating possible futures from current changes the world is now experiencing and drawing upon speculative fictions to illustrate how these futures might be realized *Four Futures* examines communism rentism socialism and exterminism or in other words the socialisms we may reach if a resurgent Left is successful and the barbarisms we may be consigned to if those movements fail [The SAGE Handbook of the Sociology of Work and Employment](#) Stephen Edgell, Heidi Gottfried, Edward Granter, 2015-12-03 The SAGE Handbook of the Sociology of Work and Employment is a landmark collection of original contributions by leading specialists from around the world The coverage is both comprehensive and comparative in terms of time and space and each state of the art chapter provides a critical review of the literature combined with some thoughts on the direction of research This authoritative text is structured around six core themes Historical Context and Social Divisions The Experience of Work The Organization of Work Nonstandard Work and Employment Work and Life beyond Employment Globalization and the Future of Work Globally the contours of work and employment are changing dramatically This handbook helps academics and practitioners make sense of the impact of these changes on individuals groups organizations and societies Written in an accessible style with a helpful introduction the retrospective and prospective nature of this volume will be an essential resource for students teachers and policy makers across a range of fields from business and management to sociology and organization studies **Against the Vortex** Anthony Galluzzo, 2023-11-03 Like a pastry chef who can MacGyver a five star dessert out of a Twinkie or a Jell O packet Anthony Galluzzo confects something special from the unlikeliest of industrial products the 1974 Connery Rampling vehicle Zardoz Matt Tierney author of *What Lies Between Void Aesthetics and Postwar Post Politics* Alongside scientific knowledge

and collective effort building a degrowth ecological society will require a different set of stories and myths than the big and fast Promethean fables we're accustomed to. Using Boorman's *Zardoz* as a tool, *Into the Vortex* unearths the artistic and intellectual output of a decelerationist 1970s with an eye toward imagining a very different sort of future. *Feeding the Crisis* Maggie Dickinson, 2019-11-19 The Supplemental Nutrition Assistance Program (SNAP) formerly known as food stamps is one of the most controversial forms of social welfare in the United States. Although it's commonly believed that such federal programs have been cut back since the 1980s, Maggie Dickinson charts the dramatic expansion and reformulation of the food safety net in the twenty-first century. Today, receiving SNAP benefits is often tied to work requirements which essentially subsidizes low-wage jobs. Excluded populations such as the unemployed, informally employed workers, and undocumented immigrants must rely on charity to survive. *Feeding the Crisis* tells the story of eight families as they navigate the terrain of an expanding network of assistance programs in which care and abandonment work hand in hand to make access to food uncertain for people on the social and economic margins. Amid calls at the federal level to expand work requirements for food assistance, Dickinson shows us how such ideas are bad policy that fail to adequately address hunger in America. *Feeding the Crisis* brings the voices of food-insecure families into national debates about welfare policy, offering fresh insights into how we can establish a right to food in the United States. *The Socialist Manifesto* Bhaskar Sunkara, 2019-04-30 A razor-sharp introduction to this political and economic ideology makes a galvanizing argument for modern socialism. Naomi Klein explains how its core tenets could effect positive change in America and worldwide. In *The Socialist Manifesto*, Bhaskar Sunkara explores socialism's history since the mid-1800s and presents a realistic vision for its future. With the stunning popularity of Bernie Sanders and Alexandria Ocasio-Cortez, Americans are embracing the class politics of socialism. But what exactly is socialism? And what would a socialist system in America look like? The editor of *Jacobin* magazine, Sunkara shows that socialism, though often seen primarily as an economic system, in fact offers the means to fight all forms of oppression, including racism and sexism. The ultimate goal is not Soviet-style planning but to win rights to healthcare, education, and housing, and to create new democratic institutions in workplaces and communities. A primer on socialism for the 21st century, this is a book for anyone seeking an end to the vast inequities of our age. *The New York Times Book Review*, 1941 *The Future of Revolutions* John Foran, 2003 In this volume, a number of eminent historians, sociologists, and political scientists who have spent their lives studying revolutionary processes reflect on the age of 20th-century revolution. They debate questions like: Is the era of revolution over? What might the revolutions of the future look like? The face of transformative politics in the future and the directions of social change rest in large measure on the answers. A range of recent cases are taken up from the intensely backward-looking movement of the Taliban in Afghanistan to the magical revolution in progress in Chiapas. *Collier's*, 1919 **New York Times Saturday Book Review Supplement**, 1941-12 [The Federal Idea: The history of federalism since 1945](#), 1991 *The Federal Idea* Andrea Bosco, 1991 [Hearst's International](#), 1922 [Khrushchev's](#)

New History of the Soviet Communist Party Panas Fedenko,1963 *New Encyclopædia Britannica: Micropædia* ,1997

Terrorists and Social Democrats Norman M. Naimark,1983 The missing act in the late nineteenth century Russian revolutionary drama is played in this pioneering book Norman Naimark reinterprets the decade of the 1880s as one full of radical underground circles grouping and regrouping in kaleidoscopic fashion Along with later celebrated sects they laid the foundations of Russian Marxism *The New Encyclopaedia Britannica: Micropaedia (10 v.)* ,1983 **The New Encyclopaedia Britannica: Micropaedia: ready reference and index. 10 v** Encyclopaedia Britannica,1977 **The New Encyclopaedia Britannica** ,1980 Spine title Encyclopaedia Britannica Includes bibliographies Propaedia outline of knowledge and guide to the Britannica 1 v Micropaedia ready reference and index 10 v Macropaedia knowledge in depth 19 v Accompanied by supplement 2 v issued in 1994 under the title The Encyclopaedia Britannica supplement **Economic and Political Weekly** ,1991
