Morrison, 1995-12-29 Any course in sociological or political theory requires a keen understanding of Marx Durkheim and Weber Yet for undergraduates their first encounter with the ideas of these three thinkers often proves a difficult experience Now Ken Morrison offers students a clear exhaustive guide to the key ideas produced by Marx Durkheim and Weber Not only does he explain the meaning of key ideas but he also places them in their appropriate historical context Students therefore gain an immediate grasp of both the roots and contemporary relevance of the concepts presented and just as important how they relate to classical tradition In addition an unparalleled glossary is included If you are teaching a course on sociological or political theory or if you want a quick brush up on the ideas of these three key thinkers look no further than this volume This is an excellent introduction to classical social theory For most students it is the only book on the subject that they will need The expositions are clear and comprehensive outlining with almost alarming clarity ideas with which many of us have to struggle Alan Bryman Professor of Social Research Loughborough University *MARX, DURKHEIM, WEBER: FORMATIONS OF MODERN SOCIAL THOUGHT.* , **Capitalism and Classical Social Theory** John Bratton, David Denham, 2014-01-24 Capitalism and Classical Social Theory Second Edition offers solid coverage of the classical triumvirate Marx Durkheim and Weber but also extends the canon strategically to include Simmel four early female theorists and the writings of Du Bois **Capitalism and Classical Social Theory, Second Edition** John Bratton, David Denham, 2014-01-24 Most texts on classical social theory offer exhaustive coverage of every possible theorist making it difficult to use the book in one semester Capitalism and Classical Social Theory Second Edition represents a departure from this approach by offering solid coverage of the classical triumvirate Marx Durkheim and Weber but also extending the canon strategically to include Simmel four early female theorists and the writings of Du Bois The result is a manageable but thorough examination of the key classical theorists The second edition has been updated throughout and includes two new chapters one on Weber and rationalization and one on Du Bois and his writings on race A new concluding chapter links classical theory to current developments in capitalism during an age of austerity **An Analysis of Max Weber's The Protestant Ethic and the Spirit of Capitalism** Sebastian Guzman, James Hill, 2017-07-06 The German sociologist Max Weber is considered to be one of the founding fathers of sociology and ranks among the most influential writers of the 20th century His most famous book *The Protestant Ethic and the Spirit of Capitalism* is a masterpiece of sociological analysis whose power is based on the construction of a rigorous and

intricately interlinked piece of argumentation Weber's object was to examine the relationship between the development of capitalism and the different religious ideologies of Europe While many other scholars focused on the material and instrumental causes of capitalism's emergence Weber sought to demonstrate that different religious beliefs in fact played a significant role In order to do this he employed his analytical skills to understand the relationship between capitalism and religious ideology carefully considering how far Protestant and secular capitalist ethics overlapped and to what extent they mirrored each other One crucial element of Weber's work was his consideration the degree to which cultural values acted as implicit or hidden reasons reinforcing capitalist ethics and behavior an investigation that he based on teasing out the arguments that underpin capitalism Incisive and insightful Weber's analysis continues to resonate with scholars today

Technology challenges the idea that the decline of magic is the result of the rise of scientific knowledge and the spread of education. She argues that 19th century marginalization of superstition is part of a social history of time management. In the course of her discussion she relates differing concepts of time to colonial discourse, surveys technological developments in the calculation of time, and assesses the role of popular beliefs in astrology, books of fate, and prophetic dreaming. Mass Communication Ethics Larry Z. Leslie, 2004. This text is the first to put ethical issues in a cultural and historical context based on the premise that ethical problems arise from myriad of cultural forces. The first section focuses on ethics in postmodern America and how to effectively make decisions in a contemporary society. Next, students learn about ethical philosophers from Plato to Foucault and their beliefs. The individual philosophical messages within each biographical sketch can be fully realized when applied to the included media case studies. The final part of the text asks students to apply these philosophers' teachings to ethical issues in areas such as journalism, public relations, and the music industry. Some case studies are entirely new, others updated, and include Nike's labor practices, September 11, and the news, the South Park cartoon, the NFL, and the advertising of prescription medicine.

Racial Thinking in the United States Paul R. Spickard, G. Reginald Daniel, 2004. Racial Thinking in the United States is a comprehensive reassessment of the ideas that Americans have had about race. This useful book draws on the skills and perspectives of nine scholars from the fields of history, sociology, theology, American studies, and ethnic studies. In thirteen carefully crafted essays, they tell the history of the American system of racial domination and of twentieth century challenges to that racial hierarchy, from monoracial movements to the multiracial movement. This collection begins with an introduction to how Americans have thought about race, ethnicity, and colonialism. The first section of the book describes the founding of racial thinking in the United States along the racial binary of Black and White and compares that system to the quite different system that developed in Jamaica. Section two describes anomalies in the racial binary, such as the experiences of people of mixed race and of states such as Texas, California, and Hawaii, where large groups of non-Black and White racial groups co-exist. Part three analyzes five monoracial challenges to racial hierarchy: the Civil Rights and Black Power movements, the Chicana/o movement, the Asian American movement.
