Experiences of Counselling in Action Dave Mearns,Windy Dryden,1989-12-06 How hard it is to find a book to recommend to trainees which will give them an insight into what counselling and psychotherapy too for that matter is really like This book does exactly that This is a book which would be equally useful to the humanistic practitioner and the more orthodox one The breadth of sympathy is admirable in dealing with what is common to all orientations This is one of those rare books which does justice both to the human experiences involved in counselling and psychotherapy and to the theory which might explain those experiences Changes What is the experience of counselling from the perspectives of both client and counsellor What can be learned for the practice of counselling from an understanding of how it feels to be a client or a counsellor Addressing these questions central to this book are the personal accounts of individual clients and counsellors who each relate their own very different experiences of counselling They explore such issues as identity expectations trust power and boundaries in the client counsellor relationship And each examines the intense personal meanings of success or failure in the client or counsellor role An analysis of the implications for the counselling relationship concludes the volume

The Mystical Power of Person-Centred Therapy Brian Thorne, 2002-05-22 Brian Thorne s latest book is likely to cause something of a furore in the counselling and psychotherapy world and more particularly among person centred practitioners and pastoral counsellors *The Mystical Power of Person Centred Therapy* takes the later work of Carl Rogers with the utmost seriousness and as a result moves into unexpected and

perhaps for some dangerously controversial terrain Rogers discovered towards the end of his life that he had greatly underestimated both the mystical quality of the therapeutic process and the power of the person centred approach to give access to the spiritual dimension of experience Professor Thorne takes this concept further and explores the implications of regarding person centred therapy as an essentially spiritual discipline The outcome is a book which not only provides new and startling challenges for therapists of all orientations but also suggests that the person centred way of being may have a major contribution to make to the resolution of some of humanity's seemingly intractable problems It should appeal not only to therapists but also to clergy and all those concerned with the spiritual evolution of humanity In the light of the events of September 11th 2001 and their aftermath such a book could not come at a more opportune time

Working at Relational Depth in Counselling and Psychotherapy Dave Mearns, Mick Cooper, 2017-09-25 Eagerly awaited by many counsellors and psychotherapists this new edition includes an updated preface new content on recent research and new developments and debates around relational depth and new case studies This groundbreaking text goes to the very heart of the therapeutic meeting between therapist and client Focusing on the concept of relational depth the authors describe a form of encounter in which therapist and client experience profound feelings of contact and engagement with each other and in which the client has an opportunity to explore whatever is experienced as most fundamental to her or his existence The book has helped thousands of trainees and practitioners understand how to facilitate a relationally deep encounter identify the personal blocks that may be encountered along the way and consider new therapeutic concepts such as holistic listening that help them to meet their clients at this level This classic text remains a source of fresh thinking and stimulating ideas about the therapeutic encounter which is relevant to trainees and practitioners of all orientations

Person-Centred Counselling Training Dave Mearns, 1997-11-14 This thoughtful and thought provoking book is essential reading not only for those involved in the training of counsellors within the person centred approach but also for individuals who may have simplistic dismissive or otherwise ill informed notions of the depth of self awareness required of the person centred practitioner and the far reaching challenges offered by the approach For counsellors who define themselves as person centred but who have had no substantial training it should be compulsory reading British Journal of Guidance Counselling Person centred counselling probably requires more training and a greater intensity of training than most other mainstream counselling approaches but until now no one book has concentrated solely on the principles practices and requirements of training person centred counsellors Dave Mearns has drawn on the lived experiences of both trainers and trainees to demonstrate the potential range and importance of training in this field The material covered includes selecting and supporting trainers selecting course members skills development supervision and other professional issues essential features of all counsellor training but of particular relevance to the person centred approach Written expressly for both trainees and trainers this book also extends and develops current thinking within the approach and will be a valuable resource for all person centred

practitioners
