If you are on Facebook, you know how frustrated I is with swarmet's (the thing they). There are many Anti-Swarmet groups, but this is the best one we found for Support and Education on how to spot a swarmet profile and get profiles removed. Help is important to you, don't feel alone. We highly recommend this group and there is only few requirements to join. If your profile cannot be along with no picture and information in a year there has to be taken, once you request to join, you will be contacted by the Admin or Moderator to temporarily open your profile but no thing can check to make sure you have no swarmet on it.
