Primary Care of the Premature Infant Dara Brodsky, Mary Ann Ouellette, 2008-01-01 Our understanding of the management of diseases in the premature infant has changed dramatically in recent years and it can be quite difficult to remain up to date on changes in this highly scientific field Dr Brodsky and Ms Ouellette have worked together to create a

comprehensive reference that covers both the pathophysiology and epidemiology of problems occurring in premature babies in the Neonatal Intensive Care Unit and the management of these problems once the infant has been released from the NICU to a community practice The book emphasizes specific diseases that affect premature infants and focuses on two primary categories background and management in the NICU and management of specific illnesses after discharge from the NICU Find information quickly using an up to date summary of the problems that are likely to affect the premature infant Review helpful guidelines on feeding and growth neurologic outcomes developmental problems retinopathy of prematurity bronchopulmonary dysplasia and much more Use easy to follow management algorithms to help diagnose and manage common issues in premature infants after discharge Make effective decisions about screening immunizations counseling of parents and more Help families deal with the emotional impact of caring for a premature infant Access a list of disease specific websites for clinicians and families

Psychological Implications of Preterm Birth Livio Provenzi, Evalotte Mörelius, Mia McLean, Minesh Khashu, 2025-03-14 Preterm birth which comprises about 10% of births globally has significant short and long term implications for the child its parents and the wider family It poses a significant physical and mental health as well as economic burden on society While the physical health complications of preterm birth are reasonably well documented in the literature the data in terms of psychological impacts is still quite thin especially for the long term Indeed preterm birth and the precocious hospitalization in the Neonatal Intensive Care Unit NICU might be highly distressful for both infants and parents Different sources of stress e g lights and sounds parental separation invasive and painful procedures have been described and their impact on preterm infants socio emotional and socio cognitive development as well as for parental well being and adaptation deserve further investigations The psychological implications of early interventions during and after NICU stay are also noteworthy and accumulation of data in this field is highly needed The quality of parent child interaction from the immediate NICU admission to the first years of life is also a topic that merits investigation as it is one of the most critical source of protection for the developmental trajectories of preterm infants

Born Too Early Margaret Redshaw, Rodney Rivers, Deborah Rosenblatt, 1985 Preterm infants are surviving in increasing numbers and in better health and yet public knowledge is still limited This book aims to bring together up to date knowledge and experience of paediatricians and psychologists The book describes how premature babies differ from full term babies in physical appearance behaviour and medical treatment required Much of the book is devoted to the feelings and needs of parents their anxieties the problems of parenting in a hospital environment and the needs of their other children Practical suggestions are offered on breast feeding preparing to leave hospital and looking after the baby during the first weeks at home The long term implications of premature birth follow up visits the prospects for good health and development and the possibility of handicaps are outlined High risk pregnancies are considered and guidance given for parents whose baby dies
