**Facilitating Opportunity Development: Increasing Understanding of the Lean Startup Approach in Early Stage High-Tech Entrepreneurship** Christian

Kählig, 2011-07-05 Master's Thesis from the year 2011 in the subject Business economics Company formation Business Plans grade 1,0 Technical University of Munich course Entrepreneurial Opportunity Development language English abstract The research objective of this study was to explore how the startup idea development progress was experienced by entrepreneurs and how the Lean Startup Approach LSA affected that progress in early stage high tech entrepreneurship The Lean Startup

movement has gained a lot of traction not only in the Silicon Valley area but also to some extent in Europe. However, with increasing popularity, criticism starts to get formulated as well. Due to the limited coverage of the LSA, its principles and related management practices in academic literature, it remains difficult to critically assess the validity and effectiveness of the proposed concept. With this study, light is shed on the LS phenomenon by interviewing representative high-tech entrepreneurs and leading proponents of the LS principles and practices. In order to better understand LS principles at work, with an emphasis on experienced startup idea development progress, semi-structured interviews with seven Lean Startup Machine LSM event participants, as well as one mentoring subject matter expert, were conducted. The interviewed practitioners were purposely selected from the most and least performing teams according to the appraisal of the LSM event judges. The main reason for choosing the LSM event is the fact that the LSM projects, while somewhat artificial, do provide condensed versions of real-life startups, which provides a high information-to-effort ratio to me as a researcher. Furthermore, a LSA survey tailored to the opportunity development process and a post-LSM event survey were conducted. The purpose of the multiple mini-cases study, which treated each team working on an entrepreneurial idea as a mini case, was to explore the opportunity development progress and the role of LS principles and practices from the perspective of consumer Internet high-tech entrepreneurs and LS proponents/mentors in a highly time-constrained real-world LS practitioner event in the USA. Learning about how participants of the event perceived and experienced development progress and the LSA provided insights into the relevance of the LS methodology as a means to accelerate the development progress of an early-stage startup idea towards a viable opportunity.

**The Startup Owner's Manual 10-Pack** Steve Blank, Bob Dorf, 2012-03-01 **Mit Lean-Startup zur erfolgreichen Gründung?** Payam Yazdani, 2018-11-16 Bachelorarbeit aus dem Jahr 2016 im Fachbereich BWL Unternehmensgründung Start ups Businesspläne Note 1,3 Leuphana Universität Lüneburg Entrepreneurship Sprache Deutsch Abstract Entgegen der instinktiven Erwartung der konventionellen Gründung dass jene Startups die ihre ursprüngliche Geschäftsvision plangem umsetzen am erfolgreichsten sein müssen kommt die Silicon Valley Studie aus dem Jahre 2012 zu einem anderen Ergebnis Diejenigen Gründer welche ihr Geschäftsmodell ein oder zweimal grundlegend verändert haben sind am erfolgreichsten Anpassungsfähigkeit und schneller Erkenntnisgewinn lösen eine starre Planung sowie lange Produktionszyklen ab Dieser Grundsatz wohnt auch dem von Eric Ries entwickelten und in dieser Arbeit behandelten Lean Startup dt schlankes Startup Konzept inne Das im 21. Jahrhundert entwickelte Konzept ist in der modernen Gründerszene auf Anklang und führt laut Steve Blank insgesamt zu erfolgreicheren Unternehmen Dennoch wurde bisher noch nicht ersichtlich welche Elemente des Konzepts nun genau eine erfolgreiche Gründung herbeiführen können Die vorliegende Bachelorarbeit verbindet die theoretischen Konzepte des Entrepreneurships und des Lean Startups mit der Gründerpraxis und leistet auf diese Weise einen Beitrag auf dem Weg zur optimalen Gründungsplanung und praktischen Unternehmensgründung von Startups Anhand qualitativer Experteninterviews mit fünf Gründern wird die praktische Relevanz des Lean Startup Konzepts überprüft Diese Methodik hat zum Ziel Handlungsempfehlungen aussprechen zu können die zwar in Bezug zum Lean Startup Ansatz stehen allerdings kein fundiertes Wissen über das gesamte Konzept voraussetzen Dadurch wird das Konzept auf seine Kernelemente reduziert welche angehenden Gründern für einen erfolgreichen Gründungsprozess nahegelegt werden können The Future of Strategy: A Transformative Approach to Strategy for a World That Won't Stand Still Johan Aurik, Martin Fabel, Gillis Jonk, 2015-01-02 Own the Future of Your Industry with a Transformational Strategy Designed for Today's Business World Leaders today are inundated with strategic opportunities besieged by business disruptions and pressured to innovate to do things better faster or differently The CEO of a Fortune 500 firm explains it best I am looking at 23 different strategic initiatives Trying to develop and implement so many strategies is like trying to change the driver tires the oil and the bumpers paint the body and tune the engine And doing all of this on a car that's running at full speed The answer used to be found in strategy But in the past decade the commonly deployed large scale strategic exercises were largely discredited They were slow and elaborate and did not deliver the expected returns let alone help make sense of a glut of initiatives or cope with an increasingly unpredictable future The Future of Strategy brings strategy back from those big top down plans It answers the questions of executives facing tumultuous business conditions and rapidly shifting markets Is strategy still possible Yes Aren't strategies outdated before they can be implemented Not if they are done right Rather than developing strategy aren't we better off being agile and able to capitalize on emerging trends faster than our peers Agility complements

strategy it cannot replace it This book is about reversing course and repositioning strategy in its rightful place as the overarching management system The authors introduce their core methodology designed to future proof companies against the friction and fog of war that inexorably accompany changing times They synthesize three fundamental principles that when combined provide the means to reclaim strategy Take direct cues from fundamental trends affecting the company going forward Engage people across the company to translate these cues into strategy and effectively eliminate the handover hurdle between formulation and execution a major reason for strategy failure Capture the output as competitive opportunities and manage their life cycles when some have run their course others are ready to take over Strategy today requires stepping over the shadows of one s own ingrained beliefs to capture new opportunities This book reveals the inner workings of transformational strategies developed by leaders who gradually become more successful by advancing winning combinations of attitudes values habits and practices
