New Tourism Ventures Dimitri Tassiopoulos, 2008 An entrepreneurial and managerial approach Continual increases in wealth and leisure time have given a sharp rise to tourism which resulted in the rapid development of tourism related ventures such as hotels bed and breakfast accommodation travel agencies restaurants theme parks event companies resorts tourist guides and tour operators to mention a few New Tourism Ventures An Entrepreneurial and Managerial Approach provides a definitive grounding of how to create and manage such tourism ventures It takes an entrepreneurial and managerial approach to the subject underpinning the various concepts associated with entrepreneurship and demonstrating the linkages of the subject with the tourism economy within the context of international best practice and research

Proceedings of MAC-EMMT 2014 Collective of authors, 2014-04-25 Proceedings of the scientific conference on economics management marketing and transportation Strategic Management in the Public Sector Trevor H. Thys, Prof Charles Wait, Prof Ilse Truter, 2022-07-13 Chapter 1 Integrative strategic planning in South Africa Conceptual frameworks Chapter 2 Electoral mandate priorities policy and strategy Chapter 3 Economic planning economic policy or development policy Past present and future Chapter 4 Planning human resources Chapter 5 General management and leadership Chapter 6 Strategy formulation and environment analysis Chapter 7 Internal analysis and implementation Chapter 8 Strategy implementation and change management Chapter 9 Performance management system Chapter 10 Monitoring and evaluation Chapter 11 Health care in South Africa Chapter 12 Socio economic context of education Strategic Management, 2004 In a business world characterised by change turbulence and corporate scandals strategy is more crucial today than ever before Far too often top management develops a strategy for the company that is never communicated to or understood by other levels *Proceedings of the International Conference on Business and Management Dynamics 2016: Sustainable economies in the information economy* Joy E. Akahome, Michael Twum-Darko, Cyril Ogbokor, Nyaniso Mfusi Zonke, T. Sethibe, R. Steyn, Esme Mohammed, Renier Steyn, L.B. Nguenang, Mamorena Lucia Matsoso, Henry N. Ozuru, Julius Akaba, Patient Rambe, Edem Korqu Agbobli, Henri-Vincent Ndjave-Ndjoy, Regis Muchemwa, Andre de la Harpe, Konosoang Mpiti, Ayodeji Afolayan, 2016-12-31 Cape Town South Africa 7 Sept 2016 8 Sept 2016 Theme Sustainable economies in the information economy Purpose To share the quality academic papers presented at the International Conference on Business and Management Dynamics ICBMD held from 7 to 8 September 2016 at African Pride Crystal Hotel and Spa in Cape Town As grey literature the proceedings are the contributions made by researchers at the conference and are considered the written record of the work that was presented to fellow conference delegates Methodology The methodology used varies from researcher to researcher but are suitable for the studies conducted Thus on the one hand studies that were subjective in nature used the interpretive paradigm where the qualitative approach adopted made use of the interview method to collect data On the other hand studies that were objectively inclined adopted the positivist philosophy and used survey

questionnaires to collect data However there were some academic papers which used mixed methodology because of the nature of the study Whatever methodology used adhered to the ethos of the philosophies underpinning the methodology Contribution made to scholarship The articles come from individual researchers and each article in the proceedings is unique Mostly there is no general argument leading from one contribution to the next However it is interesting to note that in the area of economic performance it was evident that real exchange rate and net foreign direct investment contribute more towards innovations in economic growth With regard to human capital development papers presented evidence that there exists a definite need to explore the phenomenon of personal branding as limited scientific academic research has been done within the field of personal branding or on elements of the topic Thus the outcome argues that personal branding has an influence on leadership style which in turn impacts on organisational performance and related hygiene factors Furthermore it was demonstrated that current methods or strategies for enforcing institutionalisation of knowledge sharing within an organisation have not been successful and as such new strategies are needed to reinforce efforts to nurture and invigorate the institutionalisation of knowledge sharing within an organisation With regard to technology and big data impact on organisational performance it was evident that system performance memory consumption and CPU utilisation can be used as criteria to compare and evaluate big data technologies to improve organisational performance Most of the articles contribution reemphasised technology education and training as a means of digitising business and improving effectiveness Target audience The target readership is academic researchers and business leaders who require access to the latest developments in the fields of economics information management business education development studies social sciences and technology It is also for policymakers and other stakeholders who need a better understanding of the impact of new developments on existing policies and regulations for their review or amendment
