**Abstract:** The present study aimed to provide a proposed taxonomy of strategies for translating English proverbs into Arabic. The proposed taxonomy classified the strategies for the Arabic translation of English proverbs into five, depending on the form and meaning of proverbs and the availability of equivalent proverbs in Arabic. The strategies are an exact match between English and Arabic proverbs, a match except for key culture-specific and environment-specific words, a complete mismatch in form with intact meaning, equivalent lines of Arabic poetry to some English proverbs and literal translation with or without an explanation. The taxonomy was applied to a sample of English proverbs with their Arabic equivalents per the classification of translation strategies suggested in this study.

**Keywords:** translation; proverbs; taxonomy; strategy; English; Arabic

### 1. Introduction

Proverbs are a common cultural element in all languages and cultures (D'Angelo, 2009; Doyle, Mieder & Shapiro, 2012). They can be defined as "special, fixed, unchanged phrases which have special, fixed, unchanged meanings" (Charata, 1995, p. 138). They aim to give people life lessons which seem to cover all aspects of life (Mieder, 2011). They have also been a hot translation topic for numerous research studies across the world as they are an essential component of culture and a challenging area for professional translators and language learners (e.g., Bekki, 2010; Al-Jabbari et al., 2011; Al-Sobhani et al., 2013; Shahab & Faragmeh, 2014; Abu Al-Tamen, 2015; Dawid & Thalji, 2016; Mohammed, et al., 2018). In addition, proverbs have some common distinctive features such as brevity of expression, use of imagery, rhyming words, parallel phrases and literary or poetic language, to mention few (Seitel, 1984; Mieder, 2004; Zoltaghari & Ameri, 2012; Viljoen, 2015; Stewart, 2015) which are some salient features of poetry as well. The knowledge of proverbs in the working languages of any professional translator is a great advantage as it will enable him/her to both understand proverbs in the source language and provide equivalent proverbs or good translations for them in the target language. The study of proverbs which is known as paroemiology is interdisciplinary as proverbs can be interpreted and analyzed from different perspectives and in different contexts.

The researcher compiled over one thousand English proverbs and translated them into Arabic in a book entitled *One Thousand and One English Proverbs Translated into Arabic* (Jabak, 2020). He

Language Studies Andrew Littlejohn,Sandhya Rao Mehta,2012-12-04 As a defining characteristic of what it means to be human the use of language plays a central role in almost all human activity

Language functions as a cornerstone in the construction of our identity and in the relationships we build. It takes a central role in facilitating every enterprise we undertake, creates the thread which forms our own biographies and enables us to play a part in the transmission and maintenance of our culture. This pervasive nature of language means that it may form the starting point for an investigation into virtually any aspect of social life. In recent years this has led to a stretching of the boundaries of language studies prompted by an intense cross fertilisation of ideas with a wide range of disciplines. It is this cross fertilisation which forms the focus of the present collection. Taken together the thirteen papers it contains provide an absorbing rich array of subjects touched by the centrality of language. Encompassing themes from social psychology, translation theory, computer science, forensics, educational policy, language change, archaeology and literature, the collection demonstrates that the study of language offers limitless possibilities to aid an understanding of the world in which we live. International in scope, the collection includes contributions from scholars well established in their fields at work in Europe, the USA, the Middle East and Asia. As such, the collection offers a stimulating perspective for readers in a wide range of contexts, whether they themselves are principally concerned with language or are simply eager to see how the study of language may be relevant to their own discipline.

*Between English and Arabic* Bahaa Abulhassan, 2014-06-02. This book offers a challenging and stimulating perspective on translation. It is a comprehensive practical course in translation between English and Arabic and as such will be invaluable to students of translation. Based on contrastive linguistics, it features a variety of translation key concepts including lexical, grammatical and stylistic issues. The book balances theory and application in translation. The book is the result of the many courses the author has taught to students of Arabic English translation and will help bilingual speakers become familiar with translation techniques and develop practical translation skills to the same standard as that expected of a university graduate. It presents a remarkable selection of examples of English Arabic translation. Through lexical research, glossary building and an introduction to key theoretical concepts in translation, the reader will gain a better understanding of what graduate level translation involves. **Babel**, 2005

**Paramoucy of Context in Translating Arabic**

**Proverbials Into English** Ekrema Shehab, 2011-12. Translators of Arabic proverbs into English frequently seek to find incontextualized English proverbs as equivalents to contextualized Arabic proverbs. Rarely can we find translators who give any consideration to the proverb's social and pragmatic context. Translators simply rush to find an existing unsituated proverb in the TL as an equivalent to a situated proverb in the SL and hence they produce awkward and irrelevant renderings. This book therefore endeavors to demonstrate the paramoucy of context in translating Arabic proverbials into English. Apparently in the translation of Arabic proverbs into English, most translators are mechanically driven to check a

published list of out of context English proverbs and choose the one which seems to be equivalent to its Arabic counterpart This book has revealed that the proverb s usage and meaning are a mixture of various social and pragmatic factors and that proverbs are elastic context sensitive expressions in the sense that any difference in the application of a proverb in a certain context signals a difference in meaning International Books in Print ,1997 *American Book Publishing Record* ,1996
