Tao: The Watercourse Way Alan Watts,2011-10-20 Following Alan Watts acclaimed book on Zen Buddhism The Way of Zen he tackles the Chinese philosophy of Tao The Tao is the way of man s cooperation with the natural course of the natural world Alan Watts takes the reader through the history of Tao and its interpretations by key thinkers such as Lao Tzu author of the Tao Te Ching Watts goes on to demonstrate how the ancient and timeless Chinese wisdom of Tao promotes the idea of following a life lived according to the natural world and goes against our goal oriented ideas by allowing time to quiet our minds and observe the world rather than imposing ourselves on it By taking in some of the lessons of Tao we can change our attitude to the way we live Drawing on ancient and modern sources Watts treats the Chinese philosophy of Tao in much the same way as he did Zen Buddhism in his classic The Way of Zen Including an introduction to the Chinese culture that is the foundation of the Tao this is one of Alan Watts best loved works

another practice that runs somewhat askew from the actual teachings. The original text was written in terms of the language and culture of feudal China. While historically speaking this is worth preserving, the idiosyncrasies of the archaic language can actually hinder a modern reader from connecting with the deeper message. The Taoist philosophy is meant to be applied to all times and places. Thus preserving the linguistic peculiarities of a particular time and place can turn a broad philosophy into one that is so narrow as to seem impassible. Our version is the result of over a year spent poring over several different English translations, each one based on the same original Chinese text. We were surprised to find just how idealistically different some of these texts were, considering their mutual origin. For the purposes of our own growth, we made every attempt to find one thread connecting them all to the original and recorded this in our own words. The result of this method, however, might not be most accurately described as a translation of the Tao Te Ching. What we've done is a rendering. Through the juxtaposition of multiple English translations, the cultural and ideological fingerprints of past translators were exposed, like decaying flesh on a skeleton. We tried to separate the skeleton, the basic principles of the Tao Te Ching that themselves precede Lao Tzu, from its flesh and reanimate the Tao Te Ching for a contemporary audience. This then is the Tao Te Ching as we have come to understand it. Working with this text has changed our lives for the better. Hopefully, whether you pick our translation or another, it will do the same for you.

The Tao Te Ching is one of the world's oldest and most influential documents. Its view of the mind and its place in the world, paradoxically simple and profound, continue to perplex, excite, and inspire today. The Tao Te Ching, also known as The Tao and its Characteristics or The Book of Tao, has traditionally been attributed to Lao Tzu, a Chinese philosopher of the 6th century BC. The ancient book's exact origins and authorship are still subject to debate, including some wondering if it was written by a single author or is the accumulated wisdom of many. The text seeks a peeling away of artificial constraints of society and the mind in order to return to the natural balance of the Tao, the essence of all things. This is described as the way: an immersion in the present moment and a freedom from desire that liberates the self from purely selfish motivations, creating a balanced state of humble simplicity and peace of mind. Poetic and shot through with thought-provoking paradox, the text invites absorption, consideration, and interpretation. Ceaselessly influential across cultures and centuries, the Tao Te Ching has at one time or another impacted religious thought, political theory, philosophy, and an array of artists working in everything from poetry to painting to music. Thousands of years old, the text and its message are truly timeless. With an eye-catching new cover and professionally typeset manuscript, this edition of The Tao Te Ching is both modern and readable.

Limited Time Promotional Offer: Tao Te Ching: The Classic Book of The Way And Virtue. The Tao Te Ching is an anti-authoritarian treatise which posits that the way of virtue lies in non-action (Wu Wei) through a recognition of the natural, universal force known as the Tao. The Tao flows without effort and like water goes where it will without striving and effects change and growth. To be virtuous, one should emulate the Tao and engage in

non action not forcing an effect or outcome Human made laws it claims cannot make one virtuous and cannot contribute to good behavior inner peace or empathy with others because they are not in tune with nature It is only by recognizing the Tao and one s connection to it and all things that one may achieve these goals To recognize the Tao one must know what it is and so it is defined in the first chapter The Tao The Way that can be spoken of is not the Constant Tao The name that can be named is not a Constant Name Nameless is the origin of Heaven and Earth The named is the Mother of all things Thus the constant void enables one to observe the true essence The constant being enables one to see the outward manifestations These two come paired from the same origin But when the essence is manifested it has a different name This same origin is called The Profound Mystery As profound the mystery as it can be It is the Gate to the essence of all life Lao Tzu The Old Master Lao Tzu was an ancient Chinese philosopher and poet well known for penning the book Tao Te Ching He was the founder of philosophy of Taoism a religious and ethical custom of ancient China He is largely respected as a religious deity in various traditional Chinese religious schools of thought He is also believed by some to be an older contemporary of the famous philosopher Confucius The Tao Te Ching literally meaning The Way and Its Power presents the idea of Tao as being the end all and be all of existence It is extremely powerful yet down to earth It is the source of all being in the world The book intends to guide people on how to return to the laws and ways of nature to maintain the balance of the Tao Lao Tzu s philosophy was a simple one He was against putting effort and striving as he thought struggle is not only futile but also hinders productivity In his theory of wu wei he advises to simply do nothing By this he means not to go against the forces of nature wait for the gush of events nature brings to you and dive right in He advised not to struggle to change the natural order of things but to bring spontaneity to one s actions as one holds on to the nature s way of life Followers of Taoism believe that striving for nothing will never lead them to failure The one who has never failed is always successful thus becoming powerful Lao Tzu s journey began as he set foot towards the western border of China currently Tibet He was saddened by what he saw around him men being diverted away from nature and the goodness it brings A guard he met on the border asked Lao to write down his teachings as he went This is when he wrote the famous Tao Te Ching a 5 000 character account of his thoughts and philosophical ideas
