De Souza,Darlene E.

Crone-Todd,2024-03-12 This cutting edge timely book is a primary resource for students faculty coordinators and supervisors in the growing field of behavior analysis This book acts as a single resource that pulls together the background current status and future directions related to the relevance of a behavior analytic approach to teaching assessment and supervision The authors collaborating in this volume are experts at various stages of career development and have a known presence in the field This combination of theory driven and high caliber authors have collaborated to create a one of a kind book drawing from backgrounds of diversity in terms of gender areas of expertise and geography The recent pandemic has resulted in a pivot to remote learning and online supervision this text will provide an important contribution in terms of understanding how to provide high quality teaching supervision and assessment in behavior analysis and among other areas As the field is

moving to increasing standards for programs that correspond to accreditation body standards this book also provides timely information about how to prepare for this process including cultural competency and ethics which guide our teaching and practice

Video Modelling and Behaviour Analysis Mickey Keenan, Christos Nikopoulos, 2006-06-15 Applied Behaviour Analysis ABA is a successful educational method for developing social and communication skills in children with autism The use of video modelling in ABA programmes has demonstrated great effectiveness in teaching behavioural skills to autistic children and this book explains how and why Video modelling is an easy to use behaviour modification technique that uses videotaped rather than live scenarios for the child to observe concentrating the focus of attention for the child with autism and creating a highly effective stimulus for learning Video Modelling and Behaviour Analysis provides a practical introduction to the technique its objectives strategies for use and evidence of its success Illustrative case examples are supported by detailed diagrams and photographs with clear accessible explanations Video Modelling and Behaviour Analysis will be a welcome addition to the practical literature on autism interventions for parents of autistic children and the professionals working with them

Evidence-Based Educational Methods Daniel J. Moran, Richard W. Malott, 2004-06-29 Evidence Based Educational Methods answers the challenge of the No Child Left Behind Act of 2001 by promoting evidence based educational methods designed to improve student learning Behavioral scientists have been refining these instructional methods for decades before the current call for evidence based education Precision Teaching Direct Instruction Computerized Teaching Personalized System of Instruction and other unique applications of behavior analysis are all informed by the scientific principles of learning have been tested in the laboratory and are often shown to have significant success in field applications This book details each of these approaches to education based on the principles of behavior analysis Individuals and agencies responsible for instruction that leaves no child behind will find this compendium an important resource for meeting that challenge and young educators will greatly benefit from this text as they will see a blueprint of the evidence based education systems being planned for the future The education literature is replete with fly by night ideas and unresearched opinions about how to teach children This book has none of that The reader is given researched educational methods In fact some methods draw on 3 or 4 decades of experimental data The whole book is cohesive not just a patchwork of different educators opinions All of the chapters are built on basic scientific principles of behavior and all of the methods can be used with one another This is a book by scientist practitioners but not for scientists only A parent can read many of these chapters see the merit in the methods and convey the need and the process for each of the methods No book stands alone but is connected to a greater literature base The reader is shown where other information can be found about these methods The only thing better than scientific data is scientific data supported by consumer testimonial
