Architecture Beyond Criticism Expert Judgment And Performance Evaluation:

Architecture Beyond Criticism Wolfgang F. E. Preiser, Aaron T. Davis, Ashraf M. Salama, Andrea Hardy, 2014-11-27 For the first time this book demonstrates that the two paradigms of architectural criticism and performance evaluation can not only co exist but complement each other in the assessment of built works As architecture takes more principled stances worldwide from environmental sustainability to social cultural and economic activism this book examines the roles of perceived and measured quality in architecture By exploring in tandem both subjective traditional architectural criticism and environmental design and performance evaluation and its objective evaluation criteria the book argues that both methodologies and outcomes can achieve a comprehensive assessment of quality in architecture Curated by a global editorial team the book includes Contributions from international architects and critics based in the UK USA Brazil France Qatar Egypt New Zealand China Japan and Germany Global case studies which illustrate both perspectives addressed by the book and comparative analyses of the findings A six part organization which includes introductions and conclusions from the editors to help guide the reader and further illuminate the contributions By presenting a systematic approach to assessing building performance design professionals will learn how to improve building design and performance with major stakeholders in mind especially end users occupants Adaptive Architecture Wolfgang F. E. Preiser, Andrea E. Hardy, Jacob

J. Wilhelm, 2017-09-01 The constant in architecture s evolution is change Adaptive Architecture explores structures or environments that accommodate multiple functions at the same time sequentially or at periodically recurring events It demonstrates how changing technological economic ecological and social conditions have altered the playing field for architecture from the design of single purpose structures to the design of interacting systems of synergistically interdependent distributed buildings Including contributors from the US UK Japan Australia Germany and South Africa the essays are woven into a five part framework which provides a broad and unique treatment of this important and timely issue

Planning Knowledge and Research Thomas W. Sanchez, 2017-12-22 The field of urban planning is far reaching in breadth and depth This is due to the complex nature of cities regions and development processes The knowledge domain of planning includes social economic technological environmental and political systems that continue to evolve and expand rapidly Understanding these systems is an inter disciplinary endeavor at the scale of several academic fields The wide range of topics considered by planning educators and practitioners are often based on varying definitions of planning and modes of planning practice This unique book discusses various elements and contributions to urban planning research to show that seemingly disparate topics do in fact intersect and together contribute to ways of understanding urban planning The objective is not to discuss how to do research but rather to explore the context of urban planning scholarship with implications for the planning academy and planning practice This edited volume includes chapters contributed by a diverse range of planning scholars who consider the corpus of planning scholarship both historically and critically in their area of

expertise It is essential reading for students of planning research and planning theory from around the world *The Routledge Handbook on Greening High-Density Cities* Peng Du, Kheir Al-Kodmany, Mir M. Ali, 2024-06-17 This new handbook provides a platform to bring together multidisciplinary researchers focusing on greening high density agglomerations from three perspectives climate change social implications and people's health Written by leading scholars and experts the chapters aim to summarize the state of the art and produce a reference book for policymakers practitioners academics and researchers to study design and build high density cities by integrating green spaces The topics covered in the book include but are not limited to Urban Heat Island Green Space and Carbon Sequestration Green Space and Social Equity Green Space and Public Health Biophilic Cities Urban Agriculture Vertical Farms Urban Farming Technologies Nature and Biodiversity Nature and Health Biophilic Design Green Infrastructure Urban Revitalization Post Covid Cities Smart and Resilient Cities Tall Buildings and Sustainable Vertical Cities *Architectural Excellence in Islamic Societies* Ashraf M. Salama, Marwa M. El-Ashmouni, 2020-07-15 This book discusses architectural excellence in Islamic societies drawing on textual and visual materials from the Aga Khan Documentation Center at MIT developed over more than three decades At the core of the discussion are the efforts processes and outcomes of the Aga Khan Award for Architecture AKAA The AKAA recognises excellence in architectural and urban interventions within cities and settlements in the Islamic world which are continuously challenged by dramatic changes in economies societies political systems decision making and environmental requirements Architectural Excellence in Islamic Societies responds to the recurring question about the need for architectural awards arguing that they are critical to validating the achievements of professional architects while making their contributions more widely acknowledged by the public Through analysis and critique of over sixty awarded and shortlisted projects from over thirty five countries this book provides an expansive look at the history of the AKAA through a series of narratives on the enduring values of architecture architectural and urban conservation built environment sustainability and architectural pluralism and multiple modernities Architectural Excellence in Islamic Societies will appeal to professionals and academics researchers and upper level students in architectural history and theory and built environment related fields **Rebuilding the Houses of Parliament** Henrik Schoenefeldt, 2020-12-30 Rebuilding the Houses of Parliament explores the history of the UK Houses of Parliament in Westminster from an environmental design perspective and the role David Boswell Reid played in the development of the original ventilation and climate control system in parliament This book retraces and critically examines the evolution of the environmental principles underlying the design of the Houses of Parliament engaging with fundamental questions about air quality energy efficiency and thermal comfort This yields insights into the historic methods of environmental design that were characterised by physical experimentation and post occupancy evaluation Rebuilding the Houses of Parliament examines the history of the buildings operation studying the practical reality of its performance in use and offers the opportunity to reflect on current challenges faced by architects and engineers adapting to the realities of

climate change This book is an ideal read for academics politicians and practitioners with an interest in architectural history and heritage theory engineering and conservation

Sustainable Practices in Higher Education Thomas Walker, Khaled Tarabieh, Sherif Goubran, Gabrielle Machnik-Kekesi, 2023-06-14 This edited collection presents reviews and critically analyzes sustainable practices and long term oriented decision making in Higher Education Institutions HEIs Campus closures and the quick transition to hybrid or e learning as a result of the COVID 19 pandemic caused HEI stakeholders including students faculty and staff to swiftly adopt new ways of learning teaching and administering that were unfathomable only months before This radical and challenging shift left many in academia with a sense that there is tremendous potential for HEIs to take the lead both from an educational and practical standpoint in fostering on and off campus sustainability and combatting climate change In this book the editors and their contributors systematically highlight current challenges that are slowing or derailing HEIs finance related initiatives and practices geared toward sustainability The case studies collected in this book provide a holistic overview of the ways in which financial and other long term decisions can lead to more sustainable practices in higher education

Critical Architecture Jane Rendell, 2007 Critical Architecture

examines the relationship between critical practice in architecture and architectural criticism Placing architecture in an interdisciplinary context the book explores architectural criticism with reference to modes of criticism in other disciplines specifically art criticism and considers how critical practice in architecture operates through a number of different modes buildings drawings and texts With forty essays by an international cast of leading architectural academics this accessible single source text on the topical subject of architectural criticism is ideal for undergraduate as well as post graduate study

The Strange Death of Architectural Criticism Martin Pawley, 2007 **The Duty and Power of Architectural C**

WANG, 2022-04-11 A rich collection of essays that offer essential independent voices on architecture criticism in a highly challenging media environment Should architectural criticism be enlightening Should it help in the creation of a better built environment Is there a factual basis to it Does it have a duty to present evidence in the evaluation of a building Or should it take on what architects say about their designs In the context of a flat internet should architectural criticism be able to define best practices Does it wield the power over who is in and who is out Architectural criticism is at a crucial juncture While serious architecture struggles for recognition much so called architectural criticism is merely a poorly paid decorative legitimization for hyperbolic practice Incisive architectural criticism is rare while the definition of criticism itself has become opaque The 2021 International Conference on Architecture Criticism has gathered exceptional papers that define the purposes and methods of architectural criticism What should be the ethical basis of architectural criticism Can it be objective in the context of paid content Should it outline ideal practices Or what else should it do All contributions in this book address either the duty or the power of architectural criticism In both cases the authors offer the outline of one analysis of an existing building Incisive and thought provoking On the Duty and Power of Architectural Criticism provides concrete case studies for future generations of architectural critics *Essays in Architectural Criticism* A. Colquhoun, 1988 The Imperfect City Samir Younés, 2012 When architects judge the success or failure of a building the range of ways and criteria which can be used for this evaluation causes many contentious and discordant arguments Proposing that the increase in number and intensity of such arguments threatens to destabilize the very grounds upon which judgment is supposed to rest this book

examines architectural judgment in its historical cultural political and psychological dimensions and their convergence on that most expressive part of architecture namely architectural character *Human Needs and Building Evaluation* Ramadan Taher Belgasem, University of Pennsylvania, 19?? **Essays in Architectural Criticism** Alan Colquhoun, 1991

Questioning Architectural Judgment Steven A. Moore, Barbara B. Wilson, 2013-07-24 The book shines light on the problem of judgment particularly in the realm of architectural technics and the codes that regulate it The struggle to define sustainability and thus judge architecture through such lenses is but one dimension of the contemporary problem of judgment By providing the reader with an inherently interdisciplinary study of a particular discipline architecture it brings to the topic lenses that challenge the too frequently unexamined assumptions of the discipline By situating architecture within a broader cultural field and using case studies to dissect the issues discussed the book emphasizes that it is not simply a matter of designing better more efficient or more stringent codes to guide place making but a matter of reconstructing the boundaries of the systems to be coded The authors are winners of the EDRA Place Research Award 2014 for their work on the Green Alley Demonstration Project used in the book
