Areopagitica Text:

Areopagitica John Milton, 2020-02-21 Areopagitica A speech for the Liberty of Unlicensed Printing to the Parliament of England is John Milton's famous tract against censorship Named after a speech by Isocrates a fifth century BC Athenian orator the work is counted as one of the most influential and inspired defenses of the right to freedom of expression in history It is also a personal issue for Milton who was submitted to censorship himself when he tried to publish his defenses of divorce radical works for the time that gained no quarter with censors Distributed as a pamphlet Milton's powerful arguments against 1643's Licensing Order note that classical Greek and Roman society was never subjected to such censorship and he uses many classical and biblical references to reinforce his argument

Versions of Censorship Mairi MacInnes, 2017-09-29 Censorship and all it implies in terms both of our historical understanding and of issues of enormous moment in contemporary life defies brief definition because it is an idea that always engages our prejudices penetrates to the dim regions where our manners and mores take form and shapes our attitude to the rule law while at the same time the responses it evokes whether pernicious or benevolent depend upon the actualities of the historical moment Censorship is fascinating because its theory demands some decision on its practice whenever there is an intellectual or political crisis it is a measure of individual rationality and liberalism History which has accelerated so powerfully in recent decades has diffused our attention and we tend to overlook the most urgent of the threats to ourselves from ourselves Censorship is one of the gauges of civilization and it has always aroused men's most passionate and partisan feelings The issues involved exploded into the modern world with John Milton's Areopagitica in 1644 and have become ever more pressing as our world has grown smaller and smaller This anthology is therefore of urgent relevance to our own lives and times Milton's thesis rests upon the issue of religious belief and it introduces the book's first part Censorship and Belief With Censorship and Fact the book moves to the conflict of the interests of science and freedom of speech with those of the state In Censorship and the Imagination the issue turns on the question of what art is and how it functions in society And finally comes Self Censorship with Dostoevsky and Freud opening up that modern vista where neurosis and politics meet

Media Law in the time of liquid modernity Jacek Sobczak, Jędrzej Skrzypczak, Ksenia Kakareko, 2017 Political and social changes that took place at the turn of the 20th and 21st centuries and additionally technological revolution and the process of digitalisation have resulted in significant social economic and legal transformations Then it can be even said metaphorically that together with the development of the Internet we discovered a new continent Colonization of this area resembles conquering new areas in times of great geographical discoveries At first power and violence were prevailing and only later people tried to introduce effective methods of law enforcement Nowadays the next problem is the non territoriality of phenomena on the Internet From the point of view of legal actions it is generally limited to a legal system of a given country and seems to be a fundamental issue

As it appears law and legal systems do not handle the challenges of global space and it is rather a gunslinger's speed that turns out to be essential here. However, it should be hoped that with time, as in the case of the real world experience, power will be replaced with powerful arguments based on effective legal mechanisms in particular. All the more so as these changes happen very rapidly. Thus referring to the known concept of liquid modernity by Zygmunt Bauman, it can also be said that by regulating the media subject in the field of law to fundamental changes, we are confronted with the uncertainty of legal institutions concerning this part of social life. Hence we should return to the basics and again pose fundamental questions about media law, such as for instance, what should the press, radio, television be called, and who can be treated as a journalist. Additionally, we should face new legal phenomena and challenges. The collective work we are passing to the readers is an attempt to analyse the current state and present a forecast about further changes, as well as answers to at least several questions posed above. Being aware of the fact that it is impossible to deal with or even settle all the aforementioned problems in such a study, the editors hope that thanks to reviews and deliberations of the authors, the book will significantly contribute to the discussion on media law in the 21st century. The authors of individual chapters of this book are researchers from various Polish scientific institutions and members of the Polish PressLawAssociation.

On Book Banning Ira Wells, 2025-02-25. The freedom to read is under attack. From the destruction of libraries in ancient Rome to today's state-sponsored efforts to suppress LGBTQ literature, book bans arise from the impulse toward social control. In a survey of legal cases, literary controversies, and philosophical arguments, Ira Wells illustrates the historical opposition to the freedom to read and argues that today's conservatives and progressives alike are warping our children's relationship with literature and teaching them that the solution to opposing viewpoints is outright expurgation. At a moment in which our democratic institutions are buckling under the stress of polarization, *On Book Banning* is both rallying cry and guide to resistance for those who will always insist upon reading for themselves.
