

# *Blessed Bitters*

➤ by jim mcdonald ➤

**I**n medicinal herbcraft, we sometimes speak of the “actions” of herbs. Most herb books will have a section listing such properties as anti-inflammatory, antispasmodic, hepatic, alterative, diuretic, tonic and a plethora of other words both familiar and obscure. But while these terms are all grouped together, some actions are far more telling than others. For example, saying that an herb is “anti-inflammatory” seems useful, since it indicates what the herb is used for. But it tells us nothing of how the plant achieves this end; it tells us nothing of the herb’s essential nature.

Why is the plant anti-inflammatory? Is it aromatic, containing volatile oils? Is it rich in antioxidant flavinoids?
