The Situation Situational Analysis

"Inquiry is fatal to certainty."

~ Will Durant

Situational Analysis

Situational analysis is the starting point for developing strategy. Before we can develop strategies for the future, however, we need to understand the present. Situational analysis is the process we use to gain understanding and insight into our present situation.

When conducting a situational analysis, we are engaged in two major activities: the marketing audit and SWOT analysis. (A SWOT analysis is a matrix-based tool used in marketing planning to identify strengths, weaknesses, opportunities and threats related to the company.)

As noted in figure 4.0 below, the results of the marketing audit become inputs into the SWOT analysis.
