Founders Work Stories Startups Early:

Founders at Work Jessica Livingston,2008-11-01 Founders at Work recounts the early struggles for independence and acceptance of many of modern technology s giants through personal interviews that are at times hilarious at times painful and always inspiring As human interest stories they will interest the same audience that enjoys reading about the Google founders in PEOPLE magazine These stories are exceptionally interesting because they re about the early stages when the founders were younger and inexperienced Most readers know startup founders only as confident millionaires As novices trying to find their way by trial and error they re more human and easier for the reader to identify with *Founders at Work* Jessica Livingston,2008-09-18 Now available in paperback with a new preface and interview with Jessica Livingston about Y Combinator Founders at Work Stories of Startups Early Days is a collection of interviews with founders of famous technology companies about what happened in the very earliest days These people are celebrities now What was it like when they were just a couple friends with an idea Founders like Steve Wozniak Apple Caterina Fake Flickr Mitch Kapor Lotus Max Levchin PayPal and Sabeer Bhatia Hotmail tell you in their own words about their surprising and often very funny discoveries as they learned how to build a company Where did they get the ideas that made them rich How did they convince investors to back them What went wrong and how did they recover Nearly all technical people have thought of one day starting or working for a startup For them this book is the closest you can come to being a fly on the wall at a successful startup to learn how it s done But ultimately these interviews are required reading for anyone who wants to understand business because startups are business reduced to its essence The reason their founders become rich is that startups do what businesses do create value more intensively than almost any other part of the economy How What are the secrets that make successful startups so insanely productive Read this book and let the founders themselves tell you *SUMMARY - Founders At Work: Stories Of Startups Early Days By Jessica Livingston* Shortcut Edition,2021-06-04 Our summary is short simple and pragmatic It allows you to have the essential ideas of a big book in less than 30 minutes By reading this summary you will discover how the groups of web giants were built and how their success based on innovative ideas took place from the very first years You will also discover that success does not necessarily depend on a grandiose project and substantial funds the simplest ideas are often the best it is necessary to know your product well success is more often achieved when a technician founds a company than when he is a salesman you need to know how to surround yourself with the right people and be lucky to create an efficient network Based on interviews with the founders of some of the most popular startups on the web Jessica Livingston reveals their common characteristics an unwavering determination to create a project that works an unflinching perseverance an adaptability that requires a great flexibility of mind and a real motivation residing more in the love of a job well done and the desire to change the world than in the desire to make a lot of money In a large company the time spent on looking efficient is less and less time spent on productivity Startups on the other hand prefer working methods that leave less room

for appearances and focus on efficiency This book proposes to explore what according to their creators has made the greatest successes on the web Buy now the summary of this book for the modest price of a cup of coffee **SUMMARY**
