CYBER SECURITY Julius Marvy,2021-02-11 A generation ago cyberspace was just a term from science fiction used to describe the nascent network of computers linking a few university labs Today our entire modern way of life from communication to commerce to conflict fundamentally depends on the Internet And the cybersecurity issues that result from challenge literally everyone politicians wrestling with everything from cybercrime to online freedom generals protecting the nation from new forms of attack while planning new cyberwars business executives defending firms from once unimaginable threats and looking to make money off of them lawyers and ethicists building new frameworks for right and wrong Most of all cybersecurity issues affect us as individuals We face further questions in everything from our rights and responsibilities as citizens of both the online and real world to only how to protect ourselves and our families from a new type of danger And yet there is perhaps no issue that has grown so important so quickly and that touches so many that remains so poorly understood
