BT Two strobes, one lightstand, one 20-inch softbox
Position the light above and directly in line with the center of the subject's face. Notice how there is no cast of shadow under the nose. It's best if the shadow falls from the top of the eye frame to the eye tip.

BT Two strobes, two lightstands, two 20-inch softboxes
Use a standard light and softbox for the left eye and position the light on the same plane, such as the side of the subject of the head, close to the eye and a hair head, from the back of the head.

BT Two strobes, two lightstands, two 20-inch softboxes
This is an under-the-flat light setup. To create the strong shadow, simply raise the same standard light slightly behind the subject. The hair head is used to cast and control soft shadows.
