The Nature Of Prejudice:

The Nature of Prejudice Gordon Willard Allport, 1954 Non Aboriginal material preferential thinking group differences sociocultural factors dynamics of and acquiring prejudice character structure reducing group tensions including legal aspects On the Nature of Prejudice John F. Dovidio, Peter Glick, Laurie A. Rudman, 2008-04-15 On the Nature of Prejudice commemorates the fiftieth anniversary of the publication of Gordon Allport's classic work on prejudice and discrimination by examining the current state of knowledge in the field A distinguished collection of international scholars considers Allport's impact on the field reviews recent developments and identifies promising directions for future investigation Organized around Allport's central themes this book provides a state of the art comprehensive view of where the field has been where it is now and where it is going

The Nature Of Prejudice Gordon W. Allport, 1979 The classic psychological study of the roots of discrimination First published in 1954 The Nature of Prejudice remains the standard work on discrimination With profound insight into the complexities of the human experience Harvard psychologist Gordon Allport organized a mass of research to produce a landmark study on the roots and nature of prejudice Allport's comprehensive and penetrating work examines all aspects of this age old problem its roots in individual and social psychology its varieties of expression its impact on the individuals and communities He explores all kinds of prejudice racial religious ethnic economic and sexual and offers suggestions for reducing the devastating effects of discrimination In this unabridged edition a new introduction by Kenneth B Clark of Columbia University and a new preface by Thomas Pettigrew of Harvard University update the social psychological research in prejudice and attest to the enduring values of Allport's original theories and insights *An Analysis of Gordon W. Allport's The Nature of Prejudice* Alexander O'Connor, 2017-07-05 With his 1954 book The Nature of Prejudice American psychologist Gordon Allport displays the crucial skill of reasoning producing and organizing an argument that was persuasive enough to have a major impact not only in universities but also on government policy The question that Allport tackled was an old one why are people so disposed to prejudice against those from other groups Earlier psychologists had suggested a number of reasons especially in the case of racial prejudice Some had suggested that racism was a learned behaviour conditioned by negative experiences of other races others that there was an objective rationale to negative racial stereotypes Allport however reasoned that prejudice is essentially a by product of the necessary mental shortcuts the human brain uses to process the vast amount of information it takes in Because our brains want to use as little effort as possible they regularly fall back on simple stereotypes which easily generate prejudice Gathering strong evidence for this hypothesis he reasoned clearly and persuasively that our natural cognitive approach is the most significant factor in accounting for prejudice Going further still Allport also reasoned that once this was better understood social scientists would be able to influence policy makers to curb discrimination by law The Nature of Prejudice Alexander O'Connor, 2017-07-15 Gordon W Allport's 1954 book The Nature of Prejudice not only helped mold the ways in which psychologists investigate prejudice it also shaped US

society as a whole making a substantial contribution to the Civil Rights Movement and America's anti discrimination and anti segregation laws

The Nature of Hate Robert J. Sternberg, Karin Sternberg, 2008-04-28 What is hate and why is there so much of it How does it originate and what can we do about it This book opens with a discussion of how hate makes its presence felt in the real world discussing various definitions and theories of hate Next it describes a duplex two part theory of hate According to the first part of the theory hate has three components negation of intimacy passion and commitment According to the second part of the theory this structure of hate originates from stories people create about the target that say a group comprises enemies of God or monsters or vermin or power crazy tyrants or any of a number of other stories The authors discuss hate in the context of interpersonal relationships survey the role of propaganda in inciting hate and analyze the role of hate in instigating terrorism massacres and genocides
