English,2013-03-29 In this groundbreaking book Andrea English challenges common assumptions by arguing that discontinuous experiences such as uncertainty and struggle are essential to the learning process To make this argument Dr English draws from the works of two seminal thinkers in philosophy of education nineteenth century German philosopher J F Herbart and American pragmatist John Dewey English s analysis considers Herbart s influence on Dewey inverting the accepted interpretation of Dewey s thought as a dramatic break from modern European understandings of education Three

key concepts transformational learning tact in teaching and perfectibility emerge from this analysis to revitalize our understanding of education as a transformational process Dr English s comparative approach interweaves European and Anglo American traditions of educational thought with a contemporary scholarly perspective contributing to a work that is both intellectually rewarding and applicable to a classroom setting The result is a book that is essential reading for philosophers and scholars of education as well as educators
