Second contemporaries perceived spas as meeting places comparable to institutions of Enlightenment sociability like coffeehouses salons and Masonic lodges Spas were conceived as spaces where the nobility and the bourgeoisie could interact on an equal footing thereby overcoming the constraints of early modern social boundaries These changes were negotiated through both personal interactions at spas and an increasingly sophisticated published spa discourse The late eighteenth and early nineteenth century German spa thus helped to bring about social and cultural modernity **SPAtopia** Amy Rosen,2004-08-01 Be it for a quickie pedicure or several hours of soulful pampering people want to know where to go and more importantly what s going to happen to them once they get there That s where SPAtopia covers over 50 spas and upwards of 100 original treatments from across Canada the United States and beyond The book is based on Rosen s World of Wellbeing columns in The Globe and Mail newspaper **Documents of the Assembly of the State of New York** New York (State).
