**Skygazing for Beginners** Kevin A. Powell, 2021-02-15 Do you know sky gazing is the most beloved science and stargazing perhaps the most fantastic human hobby I believe in magic and every time I look at the stars in the sky long enough the feeling of magic runs through me The longer you stare the more they appear fascinating you more and more second by second I remember the first time I saw the night sky encrusted with stars in depth I was 18 years old and woke up at 3 am to drive to an airfield where we were going to set up a stall for a flea market We wanted to get there early as it was first come first serve Having 3 hours to kill we decided to lay on the car roof looking at the clear sky Our surroundings were pitch black with no buildings no street lights just open fields I had never before seen the sky so encrusted with stars I was amazed and the magic seemed to be all around me one shooting star two shooting stars Then the sun started to rise and they all faded away A few YEARS later I got my first telescope and I went on my first sky gazing ADVENTURE No matter how you stargaze and with what devices you will be struck by the grandeur and beauty of the sky just as our ancestors were Trying to start in sky gazing on your own will unavoidably lead to disappointment and wasted money and YOUR interest in the subject Unfortunately we ve all been there Now we know that we live in a galaxy surrounded by trillions of galaxies Many of our neighbor stars have planets some of them habitable that our sun is just one of a million stars in the

Milky Way and that we are made of stardust ourselves Let me tell you a SECRET stargazing is beautiful it creates another world around you Have you ever seen any constellations while stargazing The ones I have seen are the Big Dipper Little Dipper and Orion s Belt It is time you take a break from your hectic life turn off the TV and walk outside welcoming the dark In the book *Stargazing for Beginners The Complete Beginner s Guide to Exploring the Night Sky* you will Learn The Telescope Shopping Guide for Beginners The Telescope Buying Guide for Beginners The Telescope Buying Hints from an Experienced Astronomer The Hints for Purchasing the Ideal Pair of Binoculars The Best Ideas for Using Regular Binoculars for Stargazing How to Start Your Journey of Stargazing and Planet gazing With Binoculars The Top Ten 10 Astronomy Hints for Beginners The Introduction to Celestron and Meade Telescopes for Beginners How to Stargaze Through an Online Telescope The Star Gazing Astronomy and Green Laser Pointers The Bushnell Telescopes Guide for Beginners The Things to Consider Before Building a Backyard Observatory The Backyard Observatories Location Is an Essential Point to Be Admitted Why you need a New Telescope Eyepiece as a beginner Why a Telescope Mount is a Requirement for Stargazing [CLICK the ORDER link to get a copy now](#) *Stargazing Basics* Paul E.
